Artisan Technology Group

Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS
Experienced engineers and technicians on staff at our full-service, in-house repair center

InstraView℠ REMOTE INSPECTION
Remotely inspect equipment before purchasing with our interactive website at ***www.instraview.com*** ↗

WE BUY USED EQUIPMENT
Sell your excess, underutilized, and idle used equipment
We also offer credit for buy-backs and trade-ins
www.artisantg.com/WeBuyEquipment ↗

LOOKING FOR MORE INFORMATION?

Power Supplies

PowerPac 200 Power Supply

The PowerPac 200 Power Supply, with its 2.0 ampere capability, is ideal for all electrophoretic blotting applications. Its 200 volt capability also makes it useful for submarine and miniature vertical electrophoresis. The PowerPac 200 Power Supply features four sets of output terminals which deliver constant voltage or constant current with maximum output of 200 volts, 2.0 amperes, and 200 watts. Continuous or timed runs are easy to program. The PowerPac 200 Power Supply is lightweight and stackable. The LED display is easily visible from a shelf, and the viewing angle may be adjusted for optimal viewing from the bench with the 2-way leg.

With its high current output, the PowerPac 200 Power Supply allows a full range of blotting conditions, including high field intensity protein transfers and high current nucleic acid transfers. By ordering the PowerPac 200 Power Supply at the same time you order a Trans-Blot or Trans-Blot SD cell, you can realize considerable savings on a complete system for blotting (see Protein Blotting Cells).
