Product Spec Sheets

MM-6170F

256MB Non-Volatile Solid State FLASH PMC

FEATURES:

Capacity: 64MB, 128MB, 256MB
Optimum high speed booting source
Totally Non-Volatile
20 year data retention and up to 1,000,000 write/erase cycles
Fully compliant with PMC Specification rev. 2.1
Performs reads at over 20 MB/s
VxWorks driver included
PMC DMA Initiator for bus Mastering
Available in semi-rugged, extended temp. version
Supports Interrupts
Solid State

DESCRIPTION:

The MM-6170F is a 32-bit/33MHz PCI Mezzanine Card (PMC). NOR FLASH chips are utilized to provide up to 256MB of non-volatile, solid state memory. This technology makes the MM-6170F the optimum high speed booting source, performing burst read transfers at over 20 MB/s. In addition to being non-volatile, the card can be reprogrammed in place without ever removing it from the carrier card.

The card is capable of being both a target memory and a DMA initiator in order to maximize throughput. The NOR FLASH technology provides 20 year data retention and up to 1,000,000

Please Select One:

A complete VxWorks driver and BIST is included.

The configurable space header of the MM-6170F returns a class code of 05h, indicating that it is a memory controller, and a sub-class code of 00h, indicating that it is a RAM module.

Reliability is ensured by burn-in and running memory diagnostics that check operation for 48 hours while temperature-cycling boards from 0° to 70°C. Reliability is backed up by Micro Memory, LLC's Lifetime Warranty.

MM-6170F Specifications

- ▶ **Capacity** : 64MB, 128MB, 256MB
- ▶ **Transfer Rate** : Read – Over 20 MB/s, Write – Under 1 MB/s
- ▶ **Bus Mastering** : DMA Initiator for Bus Mastering necessary to maximize transfers.
- ▶ **Compatibility** : Compatible with PMC Local Bus Specification Rev 2.1
- ▶ **Module Selection** : Software selectable through I/O registers
- ▶ **Operating Temperature** : 0° to 70°C
- ▶ **Storage Temperature** : -40°C to 85°C
- ▶ **Relative Humidity** : Up to 95% without condensation
- ▶ **Power Requirements** : 5V @ 1.2A, Max (operational)
