Mounting Options (see Figures 1, 2, and 3)

National Instruments offers four mounting options for NI Compact FieldPoint, including panel mounting, DIN-rail mounting, and 19 in. rack mounting.

Mounting Option	Description	Quantity Needed to Mount cFP-BP-4	Quantity Needed to Mount cFP-BP-8	Part Number
cFP-PM-H	Panel mount with bolt holes at the sides of the backplane (included with all backplanes)	1	1	778616-01
cFP-PM-V	Panel mount with bolt holes at the top and bottom of the backplane	1	1	778688-01
cFP-RM-8	19 in. rack mount; features captive screws for easy mounting and cutouts for running grounding cables	1	1	778615-01
DIN-Rail Mounting Clip	DIN-rail clip for the cFP-BP-4 and cFP-1804	1	2 ¹	778614-01

¹DIN-rail mounting is not recommended for the cFP-BP-8.

Power Supplies (see Figure 4)

Choose from five NI DC supplies for Compact FieldPoint systems. You connect the power supply output to the Compact FieldPoint controller, which regulates, filters, and distributes power to the bank of up to eight I/O modules that it controls. All five power supplies can power an entire bank of Compact FieldPoint I/O modules. The PS-5 mounts on a DIN rail and is recommended for most Compact FieldPoint installations.

Model	Output Voltage (VDC)	Output Current (A)	Input Voltage	Part Number
PS-1	20	0.8	120 VDC	777567-01
PS-2	24	0.8	P = 1 U.S. 120/Japan 100 VAC 2 Swiss 230 VAC, 3 Australian 4 Universal Euro 240 VAC 5 North American 240 VAC 6 United Kingdom 240 VAC	777584-0P
PS-3	13.8	4	Same as PS-2	777585-0P
PS-4	24	0.625	90 to 260 VAC 50/60 Hz	778586-90
PS-5	24	5	90 to 260 VAC 50/60 Hz	778805-90

Power connects to the NI cFP-21xx modules, which regulate, filter, and distribute to attached I/O modules.

Stand-Alone Controller Mounting Kit (see Figure 5)

National Instruments offers mounting options for stand-alone Compact FieldPoint controllers. These accessories support applications for redundant controllers without redundant I/O. The panel and DIN-rail mounting kits can also provide mounting options for a stand-alone Compact FieldPoint real-time controller running NI LabVIEW Real-Time software. Controller mounting options include panel and DIN-rail mounting.

Model	Description	Part Number
Panel	Panel mounting kit for stand-alone controllers	779548-01
DIN rail	DIN-rail mounting kit for stand-alone controllers	779549-01

NI Services and Support

NI has the services and support to meet your needs around the globe and through the application life cycle – from planning and development through deployment and ongoing maintenance. We offer services and service levels to meet customer requirements in research, design, validation, and manufacturing. Visit ni.com/services.

Training and Certification

NI training is the fastest, most certain route to productivity with our products. NI training can shorten your learning curve, save development time, and reduce maintenance costs over the application life cycle. We schedule instructor-led courses in cities worldwide, or we can hold a course at your facility. We also offer a professional certification program that identifies individuals who have high levels of skill and knowledge on using NI products. Visit ni.com/training.

Professional Services

Our NI Professional Services team is composed of NI applications and systems engineers and a worldwide National Instruments Alliance Partner program of more than 600 independent consultants and

integrators. Services range from start-up assistance to turnkey system integration. Visit ni.com/alliance.

OEM Support

We offer design-in consulting and product integration assistance if you want to use our products for OEM applications. For information about special pricing and services for OEM customers, visit ni.com/oem.

Local Sales and Technical Support

In offices worldwide, our staff is local to the country, giving you access to engineers who speak your language. NI delivers industry-leading technical support through online knowledge bases, our applications engineers, and access to 14,000 measurement and automation professionals within NI Developer Exchange forums. Find immediate answers to your questions at ni.com/support.

We also offer service programs that provide automatic upgrades to your application development environment and higher levels of technical support. Visit ni.com/ssp.

Hardware Services

NI Factory Installation Services

NI Factory Installation Services (FIS) is the fastest and easiest way to use your PXI or PXI/SCXI combination systems right out of the box. Trained NI technicians install the software and hardware and configure the system to your specifications. NI extends the standard warranty by one year on hardware components (controllers, chassis, modules) purchased with FIS. To use FIS, simply configure your system online with ni.com/pxiadvisor.

Calibration Services

NI recognizes the need to maintain properly calibrated devices for high-accuracy measurements. We provide manual calibration procedures, services to recalibrate your products, and automated calibration software specifically designed for use by metrology laboratories. Visit ni.com/calibration.

Repair and Extended Warranty

NI provides complete repair services for our products. Express repair and advance replacement services are also available. We offer extended warranties to help you meet project life-cycle requirements. Visit ni.com/services.
