

Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

*InstraView*SM REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at www.instraview.com ↗

WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. www.artisanng.com/WeBuyEquipment ↗

LOOKING FOR MORE INFORMATION?

DLK-60 Electrochemical Analyzer

Trace Metal Analysis — Trace Organic Analysis —
Speciation Studies — Cyclic Voltammetry and
Chronoamperometry Techniques

As one of the most versatile analytical techniques available, voltammetry serves a broad range of applications. Metals, non-metals, ions and organics can be determined in a wide range of matrices. Because it allows determination of some metals at the parts-per-billion level, voltammetry is often used to analyze food, waste and potable water, pharmaceutical samples and electroplating baths.

The teaching of electroanalytical techniques is another important application for the DLK-60. By combining a selection of the most widely used electrochemical methods with an intuitive software interface and a low cost analyzer, the demonstration of the fundamentals of electrochemistry is now available to every undergraduate laboratory.

Low Cost Option for Teaching and Research Applications

- Small footprint, computer controlled instrument
- Mains or battery-operated
- Control and data acquisition via desktop or laptop computer
- Both options utilize a plug-in National Instruments A/D – D/A card
- Interfaces to solid or dropping mercury electrode system
- Windows® software (95/98/NT)
- Optional data analysis package available

DLK-60

Electrochemical Analyzer

Specifications

Compliance Voltage: ± 8 V

Current Range: ± 10 mA, 1 mA, 100 μ A, 10 μ A, 1 μ A, 100 nA

Accuracy: 0.03% of range

Potential Control: ± 2 V with 1 mV resolution

Acquisition Rate: 100 μ s/point

I/E Filter: 0–2 ms in eight ranges

Scan Rate: 10 μ V–10 V/s

Reference Input Impedance: 10^{12} Ω

Front Panel Features: LED's for Power / Cell On / I & E Overload

Power: On / Off

Cell Switch: On / Remote / Off

BNC Connectors: Working / Reference / Counter

Rear Panel Connections: NI DAQ Acquisition Card

External Power Supply

Cell Stand

I & E Monitor (Option)

Dimensions: 185 mm W x 40 mm H x 340 mm D

Weight: 1050 g

Specifications subject to change
012803
