

## Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

### SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

### *InstraView*<sup>SM</sup> REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at [www.instraview.com](http://www.instraview.com) ↗

### WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. [www.artisanng.com/WeBuyEquipment](http://www.artisanng.com/WeBuyEquipment) ↗

### LOOKING FOR MORE INFORMATION?

## HPWR104HR-75W

### PC/104 Peripheral Module

### 75 Watt Embedded Power Supply

-40° to +85°C Operation

#### Features:

- **High Power Capacity**
  - 75W maximum output power
  - Efficiency 88% typical
- **Wide Input Voltage Range**
  - 8-32 Vdc input (36 Volt maximum)
  - Reverse polarity input protection to 40 Volts
  - Voltage transient input protection
- **Outputs**
  - +5 Vdc at 15.0 A
  - +12 Vdc at 2.0 A, (3A max)
  - -12 Vdc at 500 mA, (1A max)
  - -5 Vdc at 100 mA on PC/104 Bus
- **Remote ON/OFF operation available**

HPWR104HR-75W Power Supply Peripheral Module

[Rugged IDAN™ Configuration](#)

#### Description:

The HPWR104HR-75W power supply module provides a compact solution for high performance PC/104 systems requiring a reliable power supply.

The wide input voltage ranges of 8-36V are suitable for applications ranging from mobile to industrial applications. The HPWR104HR-75W is connector compatible with the IPWR104HR power supply. When using the HPWR104HR-75W in IDAN™ systems the power devices are directly connected to the module frame allowing full output power even at high operating temperatures. Low component count and light weight improve reliability in most aggressive environments. Use the [UPS25ER](#) uninterruptible power supply and an external NiMH battery pack to implement a completely failsafe automotive power supply system.

The HPWR104HR-75W is available with an extended temperature range of -40 to +85 C. The power input is protected against reverse polarity and voltage transients. Power from the module is supplied to the 16 bit PC/104 bus as well as to the card edge from terminal blocks.

#### Physical Attributes:

- **Size: 90mm L x 96mm W x 15mm H (3.6"L x 3.8"W x 0.6"H)**
- **Weight: Approximately 0.14 Kg (0.32 lbs.)**
- **Operating Temperature: -40° to +85°C: 90% humidity non-condensing**
- **Storage Temperature: -55° to +125°C**

#### Recommended Accessories:

- [AC/DC PS](#) External AC/DC Power Supply
