Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS
Experienced engineers and technicians on staff at our full-service, in-house repair center

IntraView™ REMOTE INSPECTION
Remotely inspect equipment before purchasing with our interactive website at www.Instraview.com

WE BUY USED EQUIPMENT
Sell your excess, underutilized, and idle used equipment
We also offer credit for buy-backs and trade-ins

Fiber Optic Couplers, Multimode

- 1x2, 2x2, 1x4, 1x8 and 1x16 fused fiber optic couplers
- Low optical loss
- Environmentally stable
- Termination option available

Product Description

Newport’s Fiber Optic Coupler family has been developed using fused fiber technology. We employ advanced manufacturing methods and extensive environmental testing to ensure that they are suitable for applications in telecommunications, CATV, aerospace, defense, and R&D.

The multimode fiber optic couplers allow bi-directional coupling and can be used to either split or combine signals. They are available in 62.5/125 µm fiber, with low insertion loss and a broad operating wavelength range from 800 to 1600 nm. The 1x2 and 2x2 couplers are offered in both 50/50 (3 dB) and 10/90 coupling ratios. 1x4, 1x8 and 1x16 port configurations are also available. All the fiber optic couplers feature a fully ruggedized black plastic housing with 1 m long, 3 mm PVC covered pigtails, unterminated. For termination options, refer to Ordering Information.

For single mode fiber optic couplers, see Fiber Couplers and Wavelength Division Multiplexers, Singlemode.

Specifications and Ordering Information

1x2 and 2x2 50/50 (3 dB) Multimode Fiber Optic Couplers (62.5/125 µm fiber)
