

## Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

### SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

### *InstraView*<sup>SM</sup> REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at [www.instraview.com](http://www.instraview.com) ↗

### WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. [www.artisanng.com/WeBuyEquipment](http://www.artisanng.com/WeBuyEquipment) ↗

### LOOKING FOR MORE INFORMATION?

# PrPMC2800

## AltiVec Enabled Processor PMC Module

Embedded Computing for  
Business-Critical Continuity™

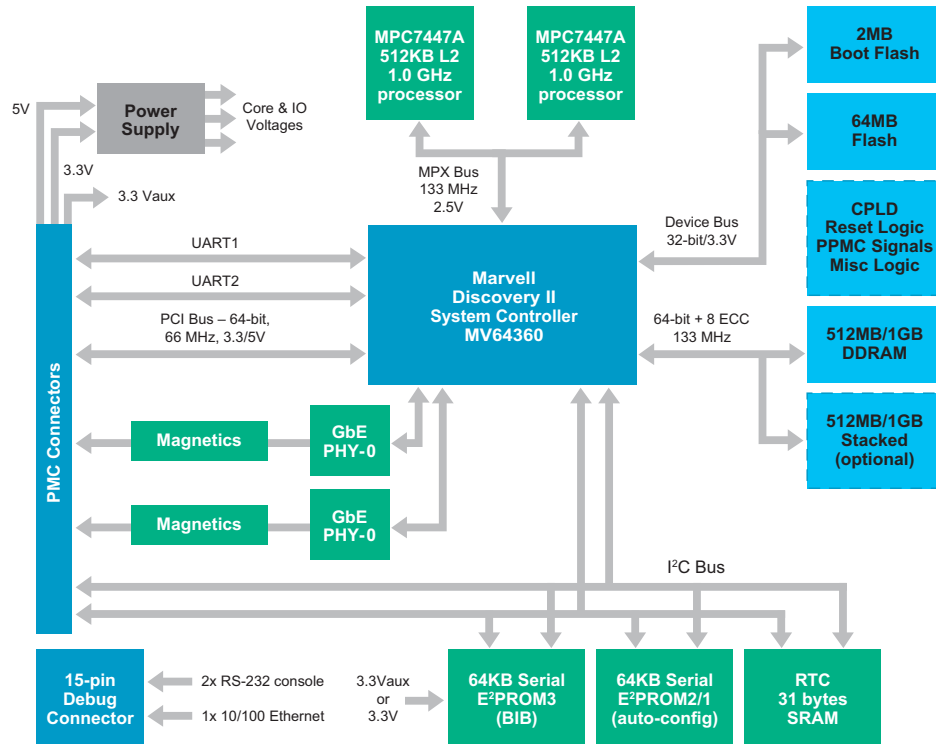

**The Motorola PrPMC2800 is a high-performance, scalable PowerPC processor PCI mezzanine card (PrPMC) for industrial control, communications, medical, defense and aerospace, and other demanding real-time applications.**

- High-performance symmetric multiprocessing (SMP) platform
- MPC7447A PowerPC G4 processor running at up to 1.0 GHz in single or dual processor configurations
- 128-bit wide AltiVec technology support
- Highly integrated Marvell Discovery II system controller
- Up to 2GB DDR SDRAM memory
- 64-bit/66 MHz PCI bus interface
- Up to 128MB on-board flash memory
- Configurable monarch/non-monarch mode
- Dual/independent Gigabit Ethernet interfaces
- Dual serial interfaces

The Motorola PrPMC2800 is a high-performance, scalable PowerPC® processor PCI mezzanine card (PrPMC) for industrial control, communications, medical, defense and aerospace, and other demanding real-time applications. By adhering to industry standards like PrPMC and PowerPC G4, the PrPMC2800 module offers the advantage of solutions with flexibility, reliability, and longevity.

## PrPMC2800 Block Diagram

## Specifications

### PROCESSOR

- MPC7447A PowerPC up to 1.0 GHz (in single- or dual-processor configuration)
- 32-bit superscalar core capable of four instructions/ clock (three issues plus branch)
- 128-bit wide AltiVec vector unit L2 cache
- 512KB on-die cache

### MEMORY

- 512MB ECC-protected SDRAM at 133 MHz, scalable to 2GB
- 64MB user flash, scalable to 128MB
- 2MB boot flash

### SOFTWARE

- VxWorks real-time operating system (supports loosely coupled multiprocessing)
- Linux operating system (with SMP and full MESI support)

### SYSTEM CONTROLLER

- Highly integrated Marvell Discovery II
- Integrated 2Mb SRAM
- CPU interface: 2.5V, 64-bit 60x/MPX bus (100/133 MHz)
- DDR interface: 2.5V, 72-bit (64-bit, 8-bit ECC)

### I/O CAPABILITIES

- Dual/independent Gigabit Ethernet serial interfaces
- Dual RS-232 controllers PCI interface
- Monarch or non-monarch mode
- 64-bit/66 MHz PCI bus
- Four-channel DMA controller
- I²C interface for multiple EEPROMs debug support
- JTAG interface

## SOLUTION SERVICES

Emerson Network Power provides a portfolio of solution services optimized to meet your needs throughout the product lifecycle. Design services help speed time-to-market. Deployment services include global 24x7 technical support. Renewal services enable product longevity and technology refresh. Plus solution extras include enhanced warranty and repairs.

PowerPC is a trademark of IBM Corp. and used under license. All other product or service names are the property of their respective owners.

This document identifies products, their specifications, and their characteristics, which may be suitable for certain applications. It does not constitute an offer to sell or a commitment of present or future availability, and should not be relied upon to state the terms and conditions, including warranties and disclaimers thereof, on which Emerson Network Power may sell products. A prospective buyer should exercise its own independent judgment to confirm the suitability of the products for particular applications. Emerson Network Power reserves the right to make changes, without notice, to any products or information herein which will, in its sole discretion, improve reliability, function, or design. Emerson Network Power does not assume any liability arising out of the application or use of any product or circuit described herein; neither does it convey any license under its patent or other intellectual property rights or under others. This disclaimer extends to any prospective buyer, and it includes Emerson Network Power's licensee, licensee's transferees, and licensee's customers and users. Availability of some of the products and services described herein may be restricted in some locations.
