White Noise Package

Model 15800

Details

This package includes the control, a 7-watt amplifier, and 4 speakers. It features a 31-stage pseudo random noise generator at 20 to 20,000 Hz, filtered to remove square wave spikes. A single volume control sets the master level for all four outputs.

A remote logic line is provided to activate the output when pulled to ground. Three additional logic lines are provided to provide 7 levels of volume from minimum to the level set on the Master Volume Control.
