LST4WBK2

[Introduction](#) [Specification](#) [Mechanical](#) [Electrical](#) [Pricing & Data Sheet](#) [Drawing](#) [Drive Data](#) [Ordering](#)

Model LST4WBK2 Series

This model is designed for use as a safety in terlock and for slow processing. The magnetic system allows use from 12 or 24 VDC based circuits. Position sensors are built-in standard, yielding logic outputs for both open and closed states. Dielectric mirrors are available for common wavelengths, providing optical power handling to 50 W. Very low out-gassing materials are used in the construction.

Features

- 4 mm Aperture
- Smallest Package with Logic Sensors
- Cycling up to 5 Hz
- Standard Gold Optic, Custom Optics Available
- Typical 10 ms Switching
- Up to 25 W Optical

Applications

- OEM Safety
- High Rep Rate DPSS
- Thin Working Zones

nmLaser Products is the world leader in laser shutter design, manufacture and rapid development for OEM applications.
