Agilent Technologies

Integrators

Entry-level data handling and control

The Agilent family of integrators for liquid and gas chromatography gives you excellent entry-level data handling and control capabilities for both Agilent and non-Agilent chromatography instruments. If you need data handling but not instrument control, Agilent's 3395 integrator is the solution. At an attractive low price, this integrator offers rugged, reliable, general-purpose analog data handling. For additional capabilities, Agilent's 3396 Series III integrator offers both instrument control, data handling and application development using the integrator's built-in BASIC language.

Features

- Post-run programming management with an autoscheduler. An autoscheduler manages post-run execution of BASIC programs automatically.
- Memory protection against power failure and accidental power off with 100 percent memory backup
- Automated data analysis and reporting through batch re-processing
- Sequence chaining that links multiple methods in sequence automatically for continuous operation
- Autonaming that generates names of files automatically based on user-specified prefixes
- Automatic post-run baseline drawing for accurate interpretation of results
- Calibration curve plotting to show detector response clearly
- Multiple data file storage for fast and accurate re-plotting or re-integrating
- Multi-level calibration for point-point, linear, non-linear, and calibration curve plotting
- The capability to invert and integrate a negative peak or clamp and ignore it
- 128 KB of RAM for storing up to 20 hours of data at 4 Hz (3395)
- General-purpose, high-resolution, single-channel analog-to-digital conversion (3395)
- Full-scale, real-time, high-resolution plots (3395)
- Two PCMCIA ports for memory expansion or application programs (3396 Series III)
- 256 KB of RAM for storing up to 20 methods (3396 Series III)
- Dual-channel data acquisition and control with Agilent 6890 and 5890 gas chromatographs (3396 Series III)
- BASIC language compiler for programming of customer applications (3396 Series III)

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
