Agilent E2071D

Description

The Agilent E2071D GPIB Interface Card is a **complete hardware and software library package** for HP-UX workstations. It gives everything needed to quickly automate your test station. It provides a cost effective, easy to buy hardware/software combination.

The high-performance E2071D has a maximum data rate of 750 KB/s. The interface is supported by SICL and VISA for HP-UX 10.20. For other HP-UX operating system support contact your local Agilent sales office. SICL and VISA let you work with open I/O libraries that are portable, regardless of the I/O interface or computer platform.

The GPIB interface card plugs into one EISA slot in the backplane of your external controller. A GPIB cable connects the card to the command module in Slot 0 of the VXI mainframe or directly to a GPIB instrument.

Refer to the Agilent Technologies Website for instrument driver availability and downloading instructions, as well as for recent product updates, if applicable.

Agilent E2071D
High-Speed GPIB Interface for
HP-UX 10.20 Workstations
Data Sheet

- High-performance GPIB interface card
- Plug-in instrument control for UNIX workstations
- VISA and SICL support
- Easy access to test automation
- 750 KB/s maximum data rate

Product Specifications

Controller Max. Data Rate Start-up Time (ms)		
Controller	Max. Data Rate (KB/s) *	Start-Up Time (ms) **
745i - E2071D (write)	750	0.3
745i - E2071D (read)	580	0.3

*Maximum data transfer rate is the speed of data movement.
**The transaction start-up time measures the overhead of starting up a transfer of data.

Interface Characteristics

Operating system:	HP-UX 10.20
Controller:	Series 700
I/O library:	SICL/VISA
Backplane:	EISA
Max. I/O speed:	750 KB/s
Buffering:	Built-in
Languages:	HP VEE, C/C++, BASIC

Agilent Technologies’ test and measurement service/support
commitment

Agilent strives to maximize the value our test and measurement products give you, while minimizing your risk and service/support problems. We work to ensure that each product is realistically described in the literature, meets its stated performance and functionality, has a clearly stated global warranty, and is supported at least five years beyond its production life. Our extensive self-help tools include many online resources (www.agilent.com).

Experienced Agilent test engineers throughout the world offer practical recommendations for product evaluation and selection. After you purchase an Agilent product, they can provide no-charge assistance with operation verification and basic measurement setups for advertised capabilities. To enhance the features, performance, and flexibility of your test and measurement products—and to help you solve application challenges—Agilent offers free or extra-cost product options and upgrades, and sell expert engineering, calibration, and other consulting services.
