- Critical and expedited services
- In stock / Ready-to-ship

- We buy your excess, underutilized, and idle equipment
- Full-service, independent repair center

Artisan Scientific Corporation dba Artisan Technology Group is not an affiliate, representative, or authorized distributor for any manufacturer listed herein.

HEAVY-DUTY PUMPS

HD-MA 80-1

- Pump housings are aluminium protected by double coats of epoxy paint, with option for Teflon coating (green in colour).
- Internal transformer reduces incoming electrical supply to 48V, 'isolating' and protecting against external voltage fluctuations.
- IP65 enclosure protection.
- Approximate weights of 5.4 to 7.6 kg.
- 162-167 mm (depth) x 236 mm (width) x 194 mm (height).
- Manufactured in accordance with **CE** regulations.

TYPES	HD-MA	■ Flow rate adjusted manually by twin-scale stroke rate knob (0-20% / 0-100%).
	HD-MA/T	■ Flow rate adjusted manually by stroke rate knob, or ■ Flow rate controlled by contact water meter, which activates pump's built-in timer.
	HD-VF	■ Flow rate adjusted manually by stroke rate knob, or ■ Flow rate controlled by a contact water meter (X water meter pulses = Y pump pulses).
	HD-PM	■ Flow rate adjusted manually by twin-scale stroke rate knob (0-20% / 0-100%), or ■ Flow rate controlled by a 0.1, 1, 2 or 4 l/pulse contact water meter (X water meter pulses = pump activation to achieve a specified system p.p.m.)
	HD-PH	■ Pump and pH controller (0-14 pH) built into one compact unit. ■ Pump activated ONLY by the incoming pH signal, but stroke rate can be user-set.
	HD-RX	■ Pump and ORP controller (± 1400 mV) built into one compact unit. ■ Pump activated ONLY by the incoming ORP signal, but stroke rate can be user-set.
	HD-PH/P	■ Pump and pH controller (0-14 pH) built into one compact unit. ■ Pump activated ONLY by the incoming pH signal. ■ Pump flow rate is proportional to difference between system pH and set point.

(Full model numbers are designated in the form of "TYPE MODEL" – eg. "HD-MA 5-10")

FEATURES	STANDARD		OPTIONS
	Electricals	230V/50-60Hz/1ph	110V, 240 V and others available.
	Body/casing (non-wetted)	Aluminium with double coats of epoxy paint.	Teflon-coated casing (green).
	Pumphead assembly	PVC (30 l/hr & above, or 20 bar models), PP (all others).	PVC, full PTFE, SS316.
	Check valves	Ball type (50 l/hr & above), Viton lip type (all others).	Lip types: EPDM, NBR, Silicon. Ball types: SS316, glass Pyrex.
	Diaphragm	Entirely PTFE	-
	Seals	Viton	EPDM, NBR, Silicon, PTFE.
	Suction / discharge tube (2m)	PVC / PE	-
	Filter (footvalve) & Injection valve	1/2" BSPm PVC (30 l/hr & above), 3/8" BSPm PP (all others).	-
	4-20 mA output from pump	HD-PH & HD-RX models only.	-
	pH/ORP electrodes	HD-PH, HD-RX & HD-PH-P models only.	-
	Relay outputs	HD-PH/P models only.	-
	Auto air bleed	-	PVC pumpheads only.
	Stroke length adjustment	-	Yes.
	Tank low level sensor	Yes (probe not included).	Order probe separately.
