Artisan Technology Group

(217) 352-9330 | sales@artisanng.com | artisanng.com

- Critical and expedited services
- In stock / Ready-to-ship

- We buy your excess, underutilized, and idle equipment
- Full-service, independent repair center

Artisan Scientific Corporation dba Artisan Technology Group is not an affiliate, representative, or authorized distributor for any manufacturer listed herein.

LX Series

Packaged Microstepping Linear Motor/Indexer/Drive Systems

Features

Performance

- Forces up to 20 pounds (89 N)
- High voltage (170V) operation for high-speed performance
- Drive provides 0-3 Amps/phase bipolar
- Microprocessor controlled microstepping provides smooth operation

Language

- Application disk provided for programming assistance and forcer selection
- Built-in RS-232C indexer with X Series command language superset
- Up to 8 units can be daisy-chained on a single RS-232C port
- 1800 characters of non-volatile memory can store up to 40 motion programs
- Automatic power-up motion program execution
- Motion sequence selection via RS-232C or external switch closures
- Sequence upload, download and automatic verify
- Automatic acceleration roll-off for maximum force utilization and shorter move times
- Flexible acceleration profiling for customized acceleration profiles
- Transmits messages out the RS-232C port for control of other RS-232C controllers or for output to message displays
- Returns message giving calculated move time of the currently defined move

Protective Circuit

- Short circuit, brownout and overtemperature protected

Physical

- Packaged system with drive, indexer, power supply, heatsink, and cables
- 95-135VAC, 50/60 Hz input power

Interface Capabilities

- Nine optically isolated inputs
- Two optically isolated programmable outputs
- Optional electronic accelerometer damping to further enhance the motor's dynamic performance
- 12,500 steps per inch standard

Performance Curve
