## FC22A-CCPMC-1C

[www.sbs.com](http://www.sbs.com)

The conduction cooled FC22A-CCPMC-1C has rugged features for enhanced immunity from harsh environmental conditions. The 1-Gbit/sec, 64-bit/66-MHz Fibre Channel PMC provides highly sustained throughput and the low latency required for demanding real-time and storage applications. This product includes optimized device drivers for Windows NT, Windows 2000/XP, VxWorks, Linux, and LynxOS. It supports one copper interface, offers rear I/O, and has a military style rugged connector for the Fibre Channel interface.

.....

For more information, visit [www.sbs.com](http://www.sbs.com).

### FEATURES

- 64-bit/66-MHz PMC
- 102.7 Mbytes/sec, half-duplex sustained
- Multiple initiator-capable copper interface support
- SCSI target, SCSI initiator
- RemoteDMA and IP protocol
- Conduction cooling
- Extended operating temperature
- AirBorn connector for Fibre Channel interface
- Rear I/O
- Unique high-bandwidth and low-latency firmware and software running on industry standard QLogic Fibre Channel 2200 controller chips

# Artisan Technology Group is an independent supplier of quality pre-owned equipment

## Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

## We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
