- Full-service, independent repair center

Artisan Scientific Corporation dba Artisan Technology Group is not an affiliate, representative, or authorized distributor for any manufacturer listed herein.

Rackmount Kits

Instrument Rackmount Kits

► Rackmount Adapter Kits

Rackmount adapter kits are available to mount an instrument, or combination of instruments, that is less than one full module width (MW).

- Individual 1/4 MW or 1/2 MW modules use the kits shown in the table below.
- Combinations of 1/4 MW or 1/2 MW (of equal depth) are first joined side-by-side with the Lock Link Kit (see page 32 for PN 5061-9694). Combinations joined side-by-side must be the same depth and height. Then the rackmount adapter kit is applied. If modules are of unequal depth or height, a support shelf (as shown on page 31) can be used.
- For combinations of instruments adding to 1 MW, use the rackmount flange kit (see Selecting a Rackmount Flange or Handle Kit, page 27).
- Hole patterns conform to EIA and IEC standards.

Rackmount adapter kits for 88.1 mm instrument module height (5063-9239, 5063-9240 (34190A), 5063-9241)

Rackmount adapter kits for 1/2 MW (5063-9240 (34190A), 5063-9243 (34193A), 5063-9245)

Rackmount adapter kit with mounting hardware (5063-9239)

What you get in the box

- 1 Standard flange
- 1 Adapter flange
- Attaching screws
- Front-panel rackmounting screws
