Artisan Scientific Corporation dba Artisan Technology Group is not an affiliate, representative, or authorized distributor for any manufacturer listed herein.

The Radar Emulation Simulator provides a cost-effective solution for simulating targets and channel controlled via a standalone graphical user interface for simplified scenario applications, a dedicated i

## Highlights

The Radar Emulation Simulator can be used for a wide range of applications. This includes:

- Radar Environment and Flight Dynamics Simulation
- Monopulse Radar System Verification
- Multi-Channel Threat Generation
- RF Seeker Development and Verification
- Hardware In the Loop (HIL) Testing
- Acceptance, Production, and Field Testing

The Radar Emulation Simulator offers several benefits:

- Helps assure mission success
- Lowers risk and costs
- Delivery on a short lead time
- Provides extended lifecycle support

Key features include:

- Supports full turnkey systems or complementary subsystems with a flexible architecture
- Customizable with a wide range of HW and SW options
- Scalable allowing entry level systems to be upgraded to enhance capability
- Support for legacy and next generation platforms
- Robust TRL-9 solution

# Artisan Technology Group is an independent supplier of quality pre-owned equipment

## Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

## We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
