- We buy your excess, underutilized, and idle equipment
- Full-service, independent repair center

Artisan Scientific Corporation dba Artisan Technology Group is not an affiliate, representative, or authorized distributor for any manufacturer listed herein.

LxSix's Holoscope Operation

LxSix's Holoscope operation has been designed to bring mass commercialization of Bragg Grating writing technology. With a focus on automation, the writing techniques enable high precision gratings at a fraction of the cost associated with current manufacturing technologies.

The Holoscope operation involves;

- **Far field Self Aligned Optical Path capability**
- **Tuneable and Repeatable Interference Patterns**
- **Automated Beam Shape Capabilities for Apodized and Chirped Grating**

The Holoscope operation has been designed with full automation capabilities;

- **Auto-adjustment of beam's pattern (shape, power, angle and waveguide's core position)**
- **Automatic adjustment of center wavelength, bandwidth and reflectivity parameters**
- **Built in stability and repeatability through characterization of variations in written structures and interference patterns**
- **Automation of pre-and post fiber processing**
- **In-line optical test measurement**
- **Reel-to-Reel operation for continuous bragg grating fiber spool creation**

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
