## ROCKET

Rocket Cure is a powerful new class of UV spot cure systems with a wealth of exclusive features. You get adjustable UV power from 6,000 to 20,000 mW/cm<sup>2</sup>. Optional Opto Feedback guarantees you consistent UV output over the entire functional life of the lamp. Rocket Cure is the only spot cure system without a liquid light guide in the UV delivery system. This allows Rocket Cure to deliver spot radiation from 254nm to 450nm, assuring complete depth curing, surface to the substrate. Clean room concerns? Rocket Cure uses sealed bearings and brushless DC cooling fan

motors so there are no contamination worries. The unit is constructed from anodized aluminum and brushed stainless steel. Uncompromising quality. Light weight - just 20 ounces - makes Rocket 225 irradiator easy to handle. For repetitive spot curing, it can be placed on the optional mounting base. Maintenance is a breeze with simple plug-in lamp replacement. No focusing is required. Enjoy the highest level of performance in spot curing with LESCO's Rocket Cure. (Protected under U.S. patent number 5,426,697.)

# Artisan Technology Group is an independent supplier of quality pre-owned equipment

## Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

## We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
