

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group

(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center

with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment along with credit for buybacks and trade-ins.

Custom engineering

so your equipment works exactly as you specify.

- Critical and expedited services
- Leasing / Rentals / Demos

In stock / Ready-to-ship

• ITAR-certified secure asset solutions

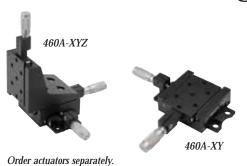

Expert team | Trust guarantee | 100% satisfaction

460A Series

Low-Profile Integrated Ball Bearing Linear Stages

- Compact, low profile 0.5 in. (13 mm) travel stage
- Precision ball bearing movements
- Angular deviation better than 150 µrad about any axis
- · Left- and right-hand configurations

Soncitivity

Compatible with Newport manual and motorized actuators

The 460A Series Low-Profile Integrated Ball Bearing Linear Stages have an integrated, yet modular, design allowing for increased versatility. The XY Model is integrated not only for precise, orthogonal motion but also for exceptionally low profile. The Z Axis Stage/Bracket is user removable allowing conversion of an XYZ Model to an XY Model or conversion of an XZ Model to an X Model. The 460A features all aluminum construction with hardened ball bearings running along opposing pairs of polished and hardened stainless steel rods. This offers exceptional straightness of travel, but a lower load capacity than our crossed-roller bearing stages. The stages are spring loaded against the drive actuator for backlash free motion. Vertical-drive assemblies carry the load through the actuator spindle rather than the springs for positive load support.

Specifications

Maximum Stage Travel [in. (mm)]	0.5 (13)	
Angular Deviation (μrad)	<150	
Max Centered Load [lb (N)]	15 (67)	
Load Capacity, Vertical (XYZ, XZ) [lb (N)]	5 (22)	

Ordering Information

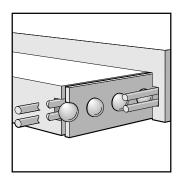

Stages

Model (Metric)	Actuators Required*
460A-X (M-460A-X)	1
460A-XY (M-460A-XY)	2
460A-XZ (M-460A-XZ)	2
460A-XYZ (M-460A-XYZ)	3

* Actuators must be ordered separately Left-handed versions of the XY and XYZ Stages are available by appending "-LH" to the model number (e.g., 460A-XY-LH)

Recommended Actuators

lanual Drives	Description	(mm)	Jensinviny (μ m)
AJS100-0.5	Fine Adjustment Screw	12.7	0.6 - 0.75
AJS127-0.5	Fine Adjustment Screw	12.7	0.6
SM-13	Micrometer	13	1
HR-13	High-Resolution Micrometer	13	0.5
DM-13	Differential Micrometer	13	0.1
DM-13L	Differential Micrometer	13	0.1
lotorized Drives			
CMA Series	Motorized Actuator	12.5–25	0.2-0.5
LTA-HS	Motorized Actuator	50	0.1
PZA12 Actuator	NanoPZ actuator, 12.5 mm travel	12.5	0.03

Preloaded precision ball bearing movements provide reduced friction and capability to make small controlled movements. Bearings are captured in hardened steel rod guides.
