Box-Type, Single-Stub Data Bus Coupler

Data Sheet

North Hills manufactures a full line of single-stub couplers for MIL-STD-1553. All four versions of USAF #7822056 are available from stock as are most other devices in our standard box-type DB series. Multiple-stub and in-line couplers are described in separate data sheets.

North Hills couplers provide 55 dB common mode rejection and are fabricated using a hot tinned cold rolled steel case which is solder sealed for superior environmental, EMI and corrosion protection. A full environmental qualification report and source control drawing template are available upon request for select products.

North Hills Model # DB02M01E Box-Type, Single-Stub Data Bus Coupler.
