GLISSANDO SLIDE SCANNERS

OASIS-XA1 Extra Axis Module for the OASIS-4i

The OASIS-XA1 is a plug-in daughter module for the OASIS-4i controller that provides an extra, 5th axis in addition to those available on the standard OASIS-4i PCI card.

The OASIS-XA1 is designed to provide an additional filter axis. Coupled with the filter axis available on the OASIS-4i, the OASIS-XA1 permits dual filter changer operation, a common requirement in fluorescence microscopy.

Key Benefits

- Compatible with TTL, Opto, and RS-422
- Library support for synchronized Z-axis position data
- Daughter board to OASIS-4i for minimum footprint
- Enables Turboscan and digital autofocus for Surveyor
