## 7400 Series Telephones

Panasonic KX-T7400 Series Proprietary Telephones combined with our Digital Super Hybrid Telephone Systems (models KX-TD500, KX-TD1232, KX-TD816, and KX-TD308) offer a host of advanced features like XDP, Jog Dial and Whisper Off-Hook Call Announce. These features make the Panasonic 7400 Series Telephones the perfect choice for today's growing businesses.

## eXtra Device Port (XDP)

An XDP is a built-in RJ-11 jack in the back of the phone that enables you to connect any single-line device, thereby doubling your connection capacity without additional cards or wires. Because the XDP is a separate extension, you can use both phone devices simultaneously. Fax a document while talking on the telephone. Carry on a phone conversation while transferring data from your PC to another.

## Flexible Central Office (CO) Line Buttons

Enables you to individually program each telephone for either Direct Station Selection (DSS)/Busy Lamp Field (BLF), automatic dialing or one-touch access to the features used most often at each station.

## 6-Line, 24-Character per line Large Backlit LCD Panel

For easy viewing of calling information, the KX-T7456 phone features a large backlit LCD display screen*. Bring your personal call log, alphabetical phone list or table of speed dial numbers up on the screen and dial directly from it. You can even program system features via LCD prompts.

*The KX-T7453 phone features a 3-line, 16 character per line backlit LCD display screen.

## Jog Dial

Panasonic 7400 Series phones feature jog dial operation for easy access to both system and personal speed dial lists, as well as speaker and handset volume controls.

## Speakerphone

A built-in speakerphone enables you to set the phone for automatic hands-free answering of intercom calls. Just imagine! Your employees will no longer need to interrupt their work flow just to answer the phone.

## Whisper Off-Hook Call Announce

This feature lets you call, via intercom, another 7400 Series phone user who is currently on the phone. The other user can hear you through the handset of his or her phone all the while undetected by the outside party. With the KX-T7436 and KX-T7456 you can opt to use either Whisper Off-Hook Call Announce or Off-Hook Call Announce, which works through the speakerphone of the person you are calling (instead of the handset).

## K-Type Handset

All Panasonic 7400 Series phones come with an ergonomically designed, full-sized K-Type handset—the industry standard for comfort and ease of use.
