984/A120 Technical Specifications

Power Requirements

Integral Power Supply

20 - 30 Vdc @ 1A Full Load Input 5 Vdc @ 2.5A to the I/O Bus Output

P120 AC Power Supply Module

95 - 270 Vac, 47/63 Hz Input

Output 24 Vdc @ 1A

P120 DC Power Supply Module

102...150 Vdc Input Output 24 Vdc @ 1.5A

Environmental

Temperature, Operating 0 - 60°C

0 - 95% non-condensing Humidity, Operating Temperature, Storage - 40 - +85°C, IEC 68-2-14 Humidity, Storage 0 - 95% non-condensing 15.000 feet (4500 m) Altitude 30 G's, 11 msec, 3 pulses/axis 10 - 57 Hz: 0.075 mm DA Shock

Vibration

57 - 150 Hz: 1 g

Dimensions

Height 5.6 in (142 mm) Width 8.4 in (213 mm) Depth 5 in (127 mm) 1.0-1.2 lb (455-540g) Weight UL, CSA, FM, CE Agency Approvals

Specially designed for space efficiency

Although the 984/A120 Compact offers the performance of a larger PLC, it is specifically designed for the micro-to-small application. Small in size, its packaging includes the CPU, builtin power supply, and up to 256 I/O in less than 1.5 square feet of panel space. With a depth of less than 5.5 inches, it will fit comfortably in an 8 inch deep panel enclosure.

The primary subrack houses the controller with built-in 24 Vdc power supply and an additional three slots for I/O modules. If required, an optional 120 Vac power converter can occupy one slot. Three additional expansion subracks can be connected, providing up to 18 slots for I/O modules. Subracks can be mounted side-by-side, with no additional hardware. Or they can be mounted in two tiers by using a single bus extension cable. DIN rail mounting makes for a fast, secure installation.

A full complement of discrete I/O modules is available in densities of 4, 8, or 16 points. Analog I/O, high speed counter/ position detection modules, and single axis servo motion control modules are also available.

984/A120 Compact Controllers

^{*} Includes memory configuration and I/O Traffic Cop. (888 words minimum – 1k words maximum)

^{**} Includes analog in/out at 16 bits each plus discrete in/out at one bit each.

^{***} Comm port 1 supports XMIT Block, temporary Modbus Master

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
