ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

AcroPack® Carriers

ACPS3300 Series CompactPCI® Serial Carrier Cards for AcroPack Modules

CE 2 YEAR WARRANTY RoHS Compliant

I/O modules sold separately

3U CompactPCI Serial ◆ Two I/O expansion slots (AcroPack or mPCIe) ◆ Rear I/O access

Description

Model: ACPS3320

The ACPS3320 is a 3U CompactPCI Serial carrier card for Acromag's AcroPack mezzanine modules. Two I/O expansion slots interface AcroPack or mini PCIe modules to the PCIe bus. All connections to field signals are made through rear backplane connectors on the carrier board which passes them to the individual AcroPack modules.

Select from 25+ AcroPack modules to install any combination of analog I/O, digital I/O, serial I/O, communication, and FPGA processor functions. This modular approach allows the user to create a board which is customized to the application, thus saving slots and reducing costs.

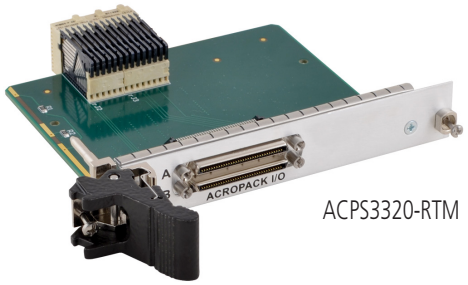

The AcroPack product line updates our popular Industry Pack I/O modules with a PCIe interface format. This tech-refresh design offers a compact, low-cost I/O solution with the same functionality of the original Industry Pack mezzanine modules. New modules offer additional capabilities such as FPGA computing, Ethernet, CAN bus, and avionics interfaces.

These carriers are ideal for high-performance systems in aerospace, defense, transportation, oil/gas, test/measurement, manufacturing, and scientific research applications. End-users and system integrators benefit from a broad range of I/O functions in a small form factor.

Key Features & Benefits

General

- Two AcroPack or mini-PCIe module slots support any combination of I/O functions
- PCI Express Version 2.1 compliant carrier
- Compliant with PICMG CPCI-S.0 R2.0 standard
- PCIe switch allows two devices to share a single 4HP peripheral board slot in a CPCI-S chassis
- Geographical addressing identifies carrier location on the backplane
- Fused +1.5V, +3.3V, +5V, +12V, -12V DC power. A fuse is present on each supply line serving each AcroPack module.
- JTAG header for programming and debugging AcroPack modules with an FPGA
- Extended temperature range
- Software development tools for VxWorks®, Linux®, and Windows® environments

ACPS3320-RTM

Acromag® THE LEADER IN INDUSTRIAL I/O

AcroPack® Carriers

ISO9001
AS9100
MADE IN USA

Performance Specifications

Interfaces

CompactPCI Serial
CompactPCI Serial (CPCI-S.0) peripheral slot card with P1 connector. PCIe x4. Geographical addressing (GA0-GA3).

PCI Express
PCIe Gen 2 switch expands host PCIe port to two ports, one for each AcroPack site. The host port has one or four PCIe lanes (depending on CPCI-S slot). Each AcroPack site has one lane.

AcroPack / Mini PCIe Mezzanine
Two AcroPack or mPCIe (full-length) slots. PCIe x1.
Site B includes USB 2.0 interface.

Rear interface: Both AcroPack modules have a PCIe x1 link (via switch) to the CPCI-S P1 connector.

Field I/O
Fifty field I/O signals from each AcroPack are brought out to CPCI-S backplane connectors P2 and P3.

Compliance

CompactPCI Serial
Meets or exceeds PICMG® CPCI-S.0 R2.0.

PCI Express
PCI Express Version 2.1 compliant carrier.

EMC
Designed to comply with EMC Directive 2004/108/EC.
Immunity: EN 61000-6-2.
Emissions: EN 61000-6-4, Class A.

Electrical / Mechanical

Power Requirements
+12V supply (±10%): 290mA typical with no AcroPacks installed.

The ACPS3320 has four DC/DC converters to provide the power supply voltages to the AcroPack modules that are not present at the host interface.
The +5V, +3.3V, +1.5V and -12V supplies are sourced from the +12V host power.

Dimensions
3U CompactPCI Serial 4HP.
Size: 100 x 160 mm (3.937 x 6.299 inches).
Weight: 163 g.

Environmental

Operating / Storage Temperature Range
Operation: -40 to 85°C (200 LFM airflow).
Storage: -55 to 125°C.

Relative Humidity
5 to 95% non-condensing.

Shock, Operating
Designed to comply with IEC 60068-2-27: 30G, 11ms half sine, 50G, 3mS half sine, 18 shocks at 6 orientations for both test levels.

Vibration, Operating
Sinusoidal: Designed to comply with IEC 60068-2-6: 10-500Hz, 5G, 2 Hours/axis.

Random: Designed to comply with IEC 60068-2-64: 10-500Hz, 5G-rms, 2 Hours/axis.

Certifications
CE compliant.

Coating/Sealant
Conformal coating available on request.

Software Support

Operating Systems
Drivers available for Linux®, Windows® and VxWorks®.

Ordering Information

Carrier Boards

ACPS3320: 3U CPCI-S carrier, two AcroPack/mPCIe sites, rear I/O, air-cooled

See Acromag.com/AcroPacks for a full list of I/O modules.

Accessories

ACPS3320-RTM: Rear transition module, 68-pin CHAMP

5025-288: Termination panel, DIN-rail mountable, SCSI-3 connector, 68 screw terminals

5028-420: Round cable, shielded, male SCSI-3 connector to 68-pin CHAMP. 0.8mm, 2 meters long

5028-615: Cable, 68-pin CHAMP to pigtail, 36 inches long

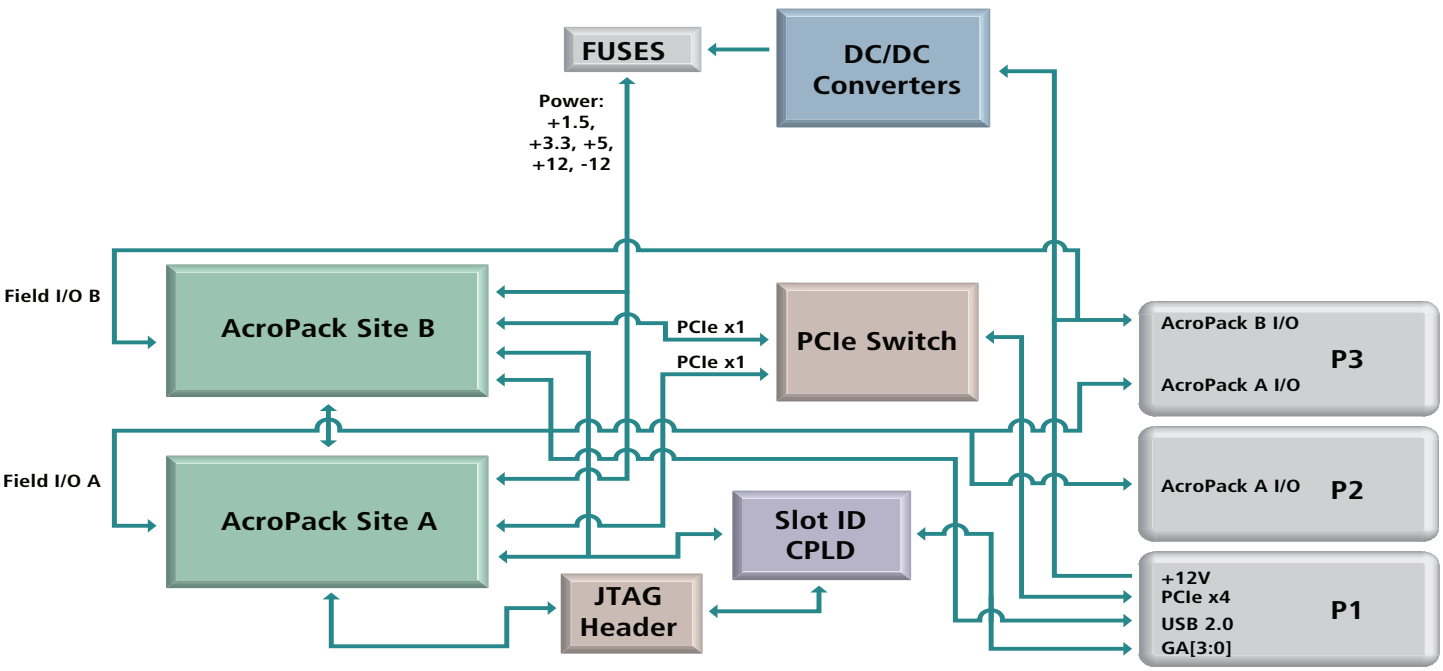

5028-616: Cable, 68-pin CHAMP to pigtail, 70 inches long

Software *(see software documentation for details)*

APSW-API-LNX: Linux® support (website download only)

APSW-API-VXW: VxWorks software support package

APSW-API-WIN: Windows DLL driver software support pkg
