AHA-3944AUWD

High Voltage Differential PCI SCSI Adapter with Dual HVD external connectors.

Photo Not Available

Status: Supported

Complimentary support and/or full manufacturer warranty are provided as well as online resources. >>

[Downloads](#)
[Documentation](#)
[Product Specifications](#)

Number of devices

Up to 30 High Voltage Differential SCSI devices

Bus System Interface Type

32-bit PCI Local Bus, Rev 2.1 compliant bus interface

External Connectors

two 68-pin Very High Density SCSI connectors

Internal Connectors

68-pin SCSI connector, Channel A 68-pin SCSI connector, Channel B

Data Transfer Rate

Up to 40.0 MBytes/sec Synchronous Wide UltraSCSI Data Rate per Channel

System Requirements

IBM compatible PC, the motherboard BIOS must support PCI-to-PCI bridges

Package Contents

AHA-3944AUWD PCI MultiChannel host adapter with SCSISelect utility Adaptec EZ-SCSI Software for DOS and Windows Adaptec 7800 Family Manager Set Software Adaptec CI/O Single Server Software Complete Hardware and Software Documentation

Warranty

5 years

Board Dimensions

6.875" L x 4.2" H (17.46 cm x 10.67 cm)

Power Consumption

5.0 +/- 0.25V (1.5A maximum)

Operating Characteristics

0°C(32°F) to 55°C(131°F)

Storage Characteristics

-55°C(-67°F) to 85°C(185°F)

AHA-3940AU

The AHA-3940AU is the newest revision of Adaptec's PCI dual channel card. The card does not use a PCI-PCI Bridge chip (PPB), but instead uses the latest dual channel ASIC from Adaptec, the AIC-7895.

AHA-3940

Adaptec's AHA-3940 and AHA-3940W MultiChannel host adapters are designed for use in computers that have 5-volt Peripheral Component Interconnect (PCI) interface slots. Each AHA-3940 and AHA-3940W MultiChannel host adapter has two SCSI channels, each of which functions as an independent host adapter. Channel A has both an internal and an external SCSI connector; Channel B has only an internal SCSI connector. With the AHA-3940, you can connect up to seven 8-bit SCSI devices per channel. With the AHA-3940W, you can connect up to fifteen 16-bit (Wide) SCSI devices per channel.

Photo Not Available

Status: Supported

Complimentary support and/or full manufacturer warranty are provided as well as online resources. >>

[Downloads](#) | [Documentation](#) | [Product Specifications](#)

Number of devices

Up to 7 devices under DOS 5.0 and above

Bus System Interface Type

PCI Local Bus

Data Transfer Rate

20 Mbytes/sec (10 Mbytes/sec per channel) Two channel Fast SCSI-2

Package Contents

AHA-3940 or AHA-3940W PCI MultiChannel host adapter
 SCSISelect configuration software
 Adaptec EZ-SCSI software for DOS and Windows
 Adaptec 7800 Family Manager Set software
 Device support for hard disk, removable, MO, CD-ROM, Photo CD, tape, DAT, scanner, and Floptical@ drives
 Adaptec CI/O Single Server software for NetWare network servers
 Sytron's Proserve CX Lite - tape backup software for NetWare
 Complete hardware and software documentation
 Internal SCSI ribbon cables (external cable not included)

Warranty

5 year

Supported Protocols

8-bit Fast SCSI-2

Advanced SCSI Features

- Advanced SCSI Programming Interface (ASPI) compliant
- Multitasking operating system support (through scatter/gather, disconnect/reconnect, tagged command queuing support)
- Independent negotiation of high-speed data transfers (Fast, Wide, and synchronous) with each device
- Support for 255 simultaneous active SCSI commands per channel

SCSI channels

Two fully independent PCI SCSI channels bridged to system PCI bus

Electrical drivers

Single-ended and active. Each channel is programmable via SCSISelect

Board Dimensions

6.875" x 4.0"

Power Consumption

5 V +/- 5% at 2.0 amps maximum

Operating Characteristics

32° F to 131° F (0° C to 55° C) 10% to 95% Relative Humidity, non condensing

Storage Characteristics

-67° F to 185° F (-65° C to 105° C)

AHA-3940UW

Each AHA-3940UW host adapter has two SCSI channels, each of which functions as an independent host adapter. With the AHA-3940UW, you can connect up to fifteen 16-bit (Wide) SCSI devices per channel. Using a 68-pin-to-50-pin converter, you can also combine 8-bit and 16-bit SCSI devices, up to 15 per channel; up to seven can be 8-bit devices.

Status: Supported

Complimentary support and/or full manufacturer warranty are provided as well as online resources. >>
