INSTRUMENT SYSTEMS

Instructions for Using the Tray Retainer in the GeneChip® 640 Hybridization Oven

Quick Reference Card

Use the tray retainer (P/N 100-0026 for a bag of eight) to secure the Affymetrix probe array carrier trays to the Affymetrix 640 Hybridization Oven carousel.

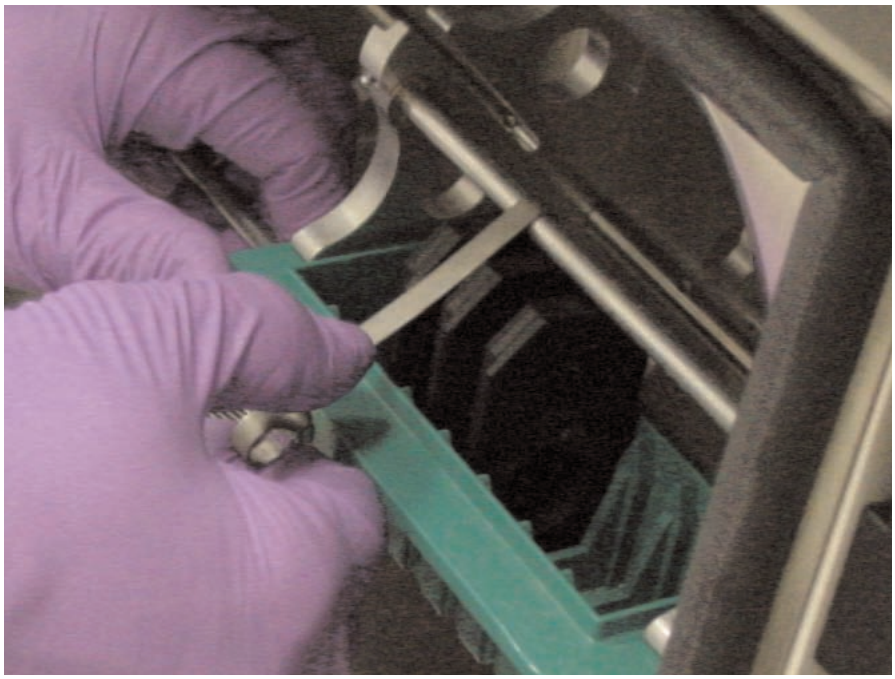

P/N 100-0026

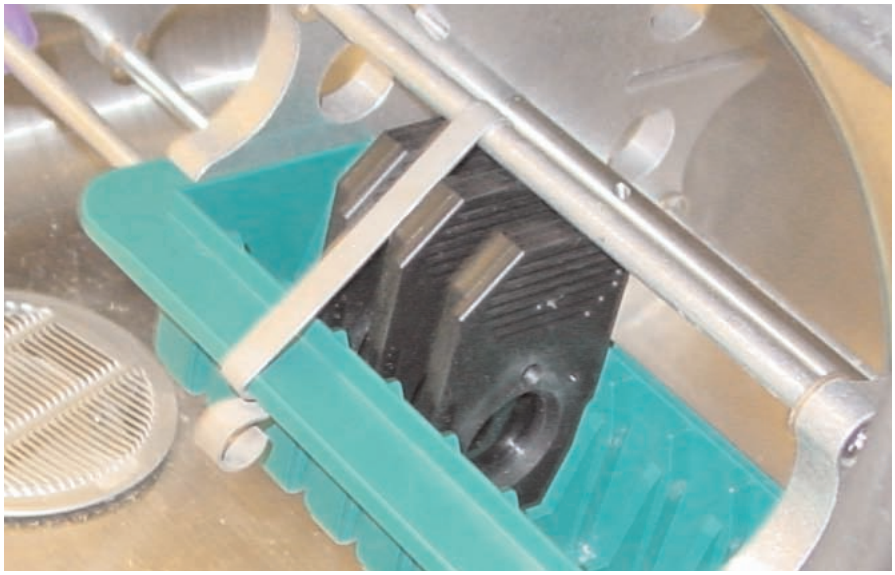

1. Position the small hooked end of the tray retainer over the upper rail of the carousel frame. The hook must face down.

Important: Position the tray retainer between adjacent GeneChip® probe arrays.

2. Snap the lower end of the tray retainer over the lip of the probe array tray by pressing with a thumb on the flat part of the retainer closest to the tray.

3. To remove the tray retainer, simply rest a thumb on the flat part of the retainer and pull the lower end out from under the lip of the tray.
