HP-IB Card & S/W for Windows 3.1/NT/95
HP 82340B

Technical Specifications

- **Plug-in interface card for PCs**
- **SICL/VISA support**
- **HP VEE compatibility**
- **HP BASIC for Windows compatibility**
- **Easy access to test automation**

Description

The HP 82340B HP-IB Interface Card and software for **external PCs** make it easy to access and control instruments, exchange data, and create your own automated test applications. The interface card is a **mid-range, 8-bit interface card** that comes with SICL and VISA software for Windows 3.1, Windows NT, and Windows 95. The HP 82340B is ideal for single-task applications where a PC is dedicated to instrument control and data acquisition. Maximum data transfer rate is 520 KB/s.

The HP-IB Interface Card plugs into one ISA/EISA slot in the backplane of your external controller. An HP-IB cable connects the card to the command module in Slot 0 of the VXI mainframe or directly to an HP-IB instrument.

The HP 82340B is also available in HP's PC Automation Kits. These bundles include your choice of HP VEE software and cables to simplify system selection. These are: HP 82345B and HP 82345D PC Automation Kits for HP VEE for Windows 3.1 and Windows 95.
