Agilent E2071C
High-Speed GPIB Interface for HP-UX Workstations

Data Sheet

- **High-performance GPIB interface card**
- **Instrument control for HP-UX workstations**
- **VISA and SICL support**
- **Easy test automation**
- **750 KB/s data rate**
- **For EISA-based HP S/700 workstations**

Agilent E2071C

Description

The Agilent Technologies E2071C High-Speed GPIB Interface card is designed for HP-UX workstations. With the E2071C, it is easy to control instruments and exchange data.

The E2071C is capable of a 750 KB/s data rate. The interface is supported by SICL and VISA (HP-UX 9.x is supported by SICL only, and not VISA). SICL and VISA let you work with open I/O libraries that are portable, regardless of the I/O interface or computer platform.

The GPIB interface card plugs into one EISA slot in the backplane of your S/700 controller. A GPIB cable connects the card to the command module in Slot 0 of the VXI mainframe or directly to a GPIB instrument.

Refer to the Agilent Technologies Website for instrument driver availability and downloading instructions, as well as for recent product updates, if applicable.

Product Specifications

Interface Characteristics

Operating system:	HP-UX 9.x, 10.01, 10.2
Controller:	Series 700
I/O library:	SICL/VISA
Backplane:	EISA
Max. I/O speed:	750 KB/s
Buffering:	None
Languages:	Agilent VEE, ANSI C, BASIC/UX

Ordering Information

Description	Product No.
High-Speed GPIB Interface for S/700	E2071C

Agilent Technologies' Test and Measurement Support, Services, and Assistance

Agilent Technologies aims to maximize the value you receive, while minimizing your risk and problems. We strive to ensure that you get the test and measurement capabilities you paid for and obtain the support you need. Our extensive support resources and services can help you choose the right Agilent products for your applications and apply them successfully. Every instrument and system we sell has a global warranty. Support is available for at least five years beyond the production life of the product. Two concepts underlie Agilent's overall support policy: "Our Promise" and "Your Advantage."

Our Promise

Our Promise means your Agilent test and measurement equipment will meet its advertised performance and functionality. When you are choosing new equipment, we will help you with product information, including realistic performance specifications and practical recommendations from experienced test engineers. When you use Agilent equipment, we can verify that it works properly, help with product operation, and provide basic measurement assistance for the use of specified capabilities, at no extra cost upon request. Many self-help tools are available.

Your Advantage

Your Advantage means that Agilent offers a wide range of additional expert test and measurement services, which you can purchase according to your unique technical and business needs. Solve problems efficiently and gain a competitive edge by contracting with us for calibration, extra-cost upgrades, out-of-warranty repairs, and on-site education and training, as well as design, system integration, project management, and other professional engineering services. Experienced Agilent engineers and technicians worldwide can help you maximize your productivity, optimize the return on investment of your Agilent instruments and systems, and obtain dependable measurement accuracy for the life of those products.

By internet, phone, or fax, get assistance with all your test & measurement needs.
