

## Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

### SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

### *InstraView*<sup>SM</sup> REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at [www.instraview.com](http://www.instraview.com) ↗

### WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. [www.artisanng.com/WeBuyEquipment](http://www.artisanng.com/WeBuyEquipment) ↗

## Agilent N5700 Series System DC Power Supplies

Models: N5741A-49A, N5750A-52A, N5761A-69A, N5770A-72A

### Data Sheet

- 24 Models: 750 W and 1500 W output power
- Up to 600 V and up to 180 A
- Small high density 1 U package
- Built-in voltage and current measurement
- Full protection from over-voltage and over-current
- 85-265 Vac Universal AC input
- Command compatibility for Sorensen DLM and Xantrex XFR DC Supplies
- LAN, USB, and GPIB interfaces standard
- Fully compliant to LXI Class C specification 

### Family of Affordable Basic System DC Power Supplies

The Agilent N5700 Series system DC power supplies give you just the right performance – at just the right price – in a compact (1 U) package. This family of affordable 750 W and 1500 W single-output programmable DC power supplies consists of 24 models for simple DC power applications. They provide stable output power, built-in voltage and current measurement, and output voltage and current from 6 V to 600 V and 1.3 A to 180 A.

These economical supplies offer many system-ready features like multiple standard I/O interfaces to simplify and accelerate test-system development for R&D, design validation, and manufacturing engineers in the aerospace/defense, automotive, component and communications industries.

### Small, High-Density Package Saves You Rack Space

The N5700 provides up to 1500 W in a small space-saving 1 U-high, 19-inch-wide package. Its air vents are in the front, side and rear (not on the top or bottom), so you can stack other instruments directly above or below it to save valuable rack space.

**Agilent Technologies**

### Easy Front-Panel Operation

You can quickly and easily operate the power supply with its rotary knobs and buttons. Using the front-panel controls, you can make coarse or fine adjustments of output voltage and current, protection settings, and set power-on states (last setting memory or factory default setting). The output voltage and current are displayed simultaneously, and LED indicators show power supply status and operating modes. You can lock the front panel controls to protect against accidental power-supply parameter changes.

### Extensive Device Protection

To safeguard your device from damage, the N5700 Series power supplies provide over-temperature, over-current and over-voltage protection (OVP) to shut down the power supply output when a fault condition occurs. They also offer an under-voltage limit (UVL) that prevents adjustment of the output voltage below a certain limit. The combination of UVL and OVP capabilities lets you create a protection window for sensitive load circuitry.

Figure 1. Front-panel control knobs and buttons make it easy to use N5700 power supplies.

Figure 2. Built-in Ethernet, USB 2.0, and GPIB interfaces enable easy system connections

### Simplify System Connections

The N5700 Series power supplies comes standard with GPIB, Ethernet/LAN, and USB 2.0 interfaces giving you the flexibility to use your I/O interface of choice today and in the future. The N5700 is fully compliant with the LXI Class C specification.

### Remote Access and Control

The built-in Web server provides remote access and control of the instrument via a standard browser such as Microsoft® Internet Explorer. Using the Web browser, you can set up, monitor and operate the N5700 remotely.

### Easy System Integration and Configuration

To simplify system development, the N5700 comes standard with IVI-COM drivers. The N5700 supports the easy-to-use SCPI (Standard Commands for Programmable Instruments).

### Command Compatibility

The N5700 includes a compatibility command set for the Xantrex XFR series power supplies, the Sorensen DLM series power supplies, and the Agilent 603x series power supplies. This simplifies system integration when converting to the N5700. For a comparison of these products, see application notes:

- Side-by-side comparison: Agilent N5700 Series System DC Source and Sorensen DLM DC Power Supply, AN 1502-1, 5989-1628EN
- Side-by-side comparison: Agilent N5700 Series System DC Source and Xantrex XFR AN 1502-2, 5989-1630EN

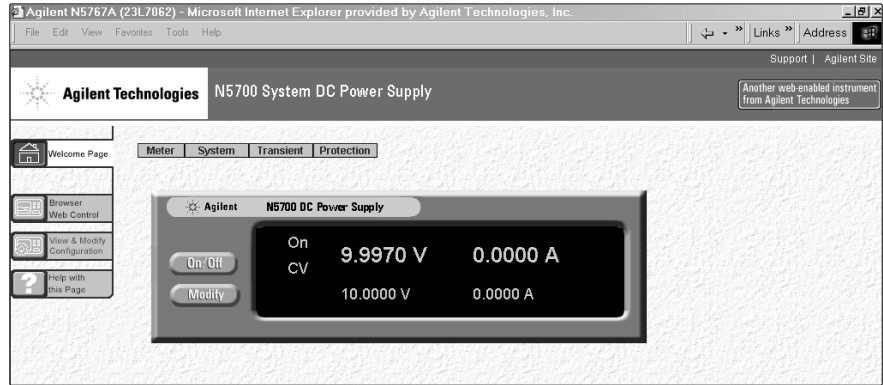

Figure 3. N5700 series web graphical user interface for remote access and control of the power supply

### Flexible configuration: Connect Multiple Units in Parallel and Series

Should you need greater output power, the N5700 series power supplies give you the flexibility to connect in parallel up to four similarly rated units for greater output current and connect two similarly rated units in series for greater output voltage (see output terminal isolation information).

### Analog Programming and Monitoring

The output voltage and current can be programmed from zero to full scale by either an analog voltage 0 to 5 V or 0 to 10 V or by resistances of 0 to 5 k $\Omega$  or 0 to 10 k $\Omega$ .

### Universal AC input

All N5700 models have universal AC input so they can be automatically operated from any AC mains input voltage worldwide. They can be operated from line voltages of 85 – 265 Vac, 47 to 63 Hz, with no switch to set or fuses to change when you switch from one voltage standard to another. They also provide power factor correction.

### Rack Mounting

The rack mount ears and handles are provided standard with every unit. In addition the N5740A rack mount slide kit makes it easy to integrate an N5700 into a test rack by providing all the necessary hardware to rack mount an N5700 series power supply in only 1 U of rack space.

## Performance Specifications

Unless otherwise noted, specifications are warranted over the ambient temperature range of 0 to 40°C.

		N5741A	N5742A	N5743A	N5744A	N5745A	N5746A

## Supplemental Characteristics for All Model Numbers

### Series and Parallel Capability

#### Parallel operation

Up to 4 units can be connected in master/slave mode

#### Series operation

Up to 2 units can be connected in series

### Output Terminal Isolation

#### 6 V to 60 V units

No output terminal may be more than  $\pm 60$  VDC from any other terminal or chassis ground

#### 80 V to 600 V units

No output terminal may be more than  $\pm 600$  VDC from any other terminal or chassis ground

### Store-recall States

#### Volatile memory

locations: 16

### Analog Programming

(of output voltage and current)

#### Input Signal

selectable;  
0 to 5 V/0 to 10 V full scale

#### Input Impedance

selectable;  
0 to 5k $\Omega$ /0 to 10 k $\Omega$  full scale

### Interface Capabilities

#### GPIB

SCPI - 1993, IEEE 488.2 compliant interface

#### USB 2.0

Requires Agilent I/O Library version L.01.01

#### 10/100 LAN

Requires Agilent I/O library version L.01.01

### Web Server

Built-in Web server requires Internet Explorer 5+ or Netscape 6.2+

### Environmental Conditions

#### Environment

Indoor use, installation category II (AC input), pollution degree 2

#### Operating temperature

0°C to 40°C @ 100% load

#### Storage temperature

-20°C to 70°C

#### Operating humidity

30% to 90% relative humidity (no condensation)

#### Storage humidity

10% to 95% relative humidity (no condensation)

#### Altitude

- Up to 3000 meters. Derate the output current by 2%/100 m above 2000 m.
- Derate the maximum ambient temperature by 1°C/100 m above 2000 m.

### Regulatory Compliance

#### EMC

- European EMC directive 89/336/EEC for Class A products
- Australian C- Tick mark
- This ISM device complies with Canadian ICES-001. Cet appareil ISM est conforme à la norme NMB-001 du Canada.

#### Safety

- European Low Voltage Directive 73/23/EEC
- US and Canadian safety standards

- Any LEDs used in this product are Class 1 as per IEC 825-1

### Acoustic Noise Declaration

Emission Directive:

- Sound Pressure Lp <70 dB(A), At Operator Position, \*Normal Operation, \*According to EN 27779 (Type Test).
- Schalldruckpegel Lp <70 dB(A) \*Am Arbeitsplatz, \*Normaler Betrieb, \*Nach EN 27779 (Typprüfung).

### AC Input

#### Nominal Input

100 – 240 VAC; 50/60 Hz

#### Input Current 750 W

10.5 A @ 100 VAC nominal;  
5 A @ 200 VAC nominal

#### Input Current 1500 W

21 A @ 100 VAC nominal;  
11 A @ 200 VAC nominal

#### Input Range

85 – 265 VAC; 47 – 63 Hz.

#### Power Factor

0.99 at nominal input and rated output power

#### Efficiency

76% – 87% for 750 W units;  
77% – 88% for 1500 W units

#### Inrush Current

<25 A for 750 W units;  
<50 A for 1500 W units

### Dimensions

(excluding connectors, and handles)

**Height** 43.6 mm (1.72 in)

## Ordering Information

### Available Models

#### 750 W Models

<b>N5741A</b>	System DC Power Supply	6 V, 100 A, 600 W
<b>N5742A</b>	System DC Power Supply	8 V, 90 A, 720 W
<b>N5743A</b>	System DC Power Supply	12.5 V, 60 A, 750 W
<b>N5744A</b>	System DC Power Supply	20 V, 38 A, 760 W
<b>N5745A</b>	System DC Power Supply	30 V, 25 A, 750 W
<b>N5746A</b>	System DC Power Supply	40 V, 19 A, 760 W
<b>N5747A</b>	System DC Power Supply	60 V, 12.5 A, 750 W
<b>N5748A</b>	System DC Power Supply	80 V, 9.5 A, 760 W
<b>N5749A</b>	System DC Power Supply	100 V, 7.5 A, 750 W
<b>N5750A</b>	System DC Power Supply	150 V, 5 A, 750 W
<b>N5751A</b>	System DC Power Supply	300 V, 2.5 A, 750 W
<b>N5752A</b>	System DC Power Supply	600 V, 1.3 A, 780 W

#### 1500 W Models

<b>N5761A</b>	System DC Power Supply	6 V, 180 A, 1080 W
<b>N5762A</b>	System DC Power Supply	8 V, 165 A, 1320 W
<b>N5763A</b>	System DC Power Supply	12.5 V, 120 A, 1500 W
<b>N5764A</b>	System DC Power Supply	20 V, 76 A, 1520 W
<b>N5765A</b>	System DC Power Supply	30 V, 50 A, 1500 W
<b>N5766A</b>	System DC Power Supply	40 V, 38 A, 1520 W
<b>N5767A</b>	System DC Power Supply	60 V, 25 A, 1500 W
<b>N5768A</b>	System DC Power Supply	80 V, 19 A, 1520 W
<b>N5769A</b>	System DC Power Supply	100 V, 15 A, 1500 W
<b>N5770A</b>	System DC Power Supply	150 V, 10 A, 1500 W
<b>N5771A</b>	System DC Power Supply	300 V, 5 A, 1500 W
<b>N5772A</b>	System DC Power Supply	600 V, 2.6 A, 1560 W

### Options

#### 1500 W Models

**Opt 861**  
Unterminated Power Cord, USA, Canada, Japan, China, Other

**Opt 862**  
Harmonized Unterminated Power Cord, Europe

#### 750 W Models

**Opt 900**  
Power Cord, United Kingdom

**Opt 902**  
Power Cord, Europe

**Opt 903**  
Power Cord, USA, Canada

**Opt 918**  
Power Cord, Japan

**Opt 922**  
Power Cord, China

### Accessories

**N5740A**  
Rack Mount Slide Kit (required for rack mounting; standard system 11 rack-mounting hardware will not work)

## Agilent Technologies' Test and Measurement Support, Services, and Assistance

Agilent Technologies aims to maximize the value you receive, while minimizing your risk and problems. We strive to ensure that you get the test and measurement capabilities you paid for and obtain the support you need. Our extensive support resources and services can help you choose the right Agilent products for your applications and apply them successfully. Every instrument and system we sell has a global warranty. Two concepts underlie Agilent's overall support policy: "Our Promise" and "Your Advantage."

### Our Promise

Our Promise means your Agilent test and measurement equipment will meet its advertised performance and functionality. When you are choosing new equipment, we will help you with product information, including realistic performance specifications and practical recommendations from experienced test engineers. When you receive your new Agilent equipment, we can help verify that it works properly and help with initial product operation.

### Your Advantage

Your Advantage means that Agilent offers a wide range of additional expert test and measurement services, which you can purchase according to your unique technical and business needs. Solve problems efficiently and gain a competitive edge by contracting with us for calibration, extra-cost upgrades, out-of-warranty repairs, and on-site education and training, as well as design, system integration, project management, and other professional engineering services. Experienced Agilent engineers and technicians worldwide can help you maximize your productivity, optimize the return on investment of your Agilent instruments and systems, and obtain dependable measurement accuracy for the life of those products.

### Agilent Email Updates

Get the latest information on the products and applications you select.

### Agilent Direct

[www.agilent.com/find/agilentdirect](http://www.agilent.com/find/agilentdirect)

Quickly choose and use your test equipment solutions with confidence.

### Agilent Open

[www.agilent.com/find/open](http://www.agilent.com/find/open)

Agilent Open simplifies the process of connecting and programming test systems to help engineers design, validate and manufacture electronic products. Agilent offers open connectivity for a broad range of system-ready instruments, open industry software, PC-standard I/O and global support, which are combined to more easily integrate test system development.
