E-Z Arm 2.5

Features & Benefits

2.5-in. dia. arm in 4- or 6-foot lengths Provides for high-efficiency source-point collection for close work areas.

4.75-in. dia. flanged intake hood: Increases collection area and efficiency.

Strong, extruded aluminum tubing: Epoxy powder coated for for corrosion resistance; lightweight for one-hand positioning.

Triple-joint section design: Provides complete 360° range of movement, allows for positive positioning in any setup.

Heavy-duty stamped aluminum joints: External friction adjustments can handled contunued repositioning with losing position integrity.

Universal wall/table mounting bracket: Allows multiple mounting options to maximize operator productivity and space usage.

Flange-up or flange-down design: Allows table or wall mounting configuration.

Options

Filtration Units: HEPA, cartridge, and odor-control filter systems available based on application.

Blower Packages: Multiple options available to meet application-specific criteria.
