Pocket Scan Converter

PSC-1106

Portable PC to TV Video Converter

The Pocket Scan Converter is a new addition to AITech's market leading line of PC to TV video converters. Popular for business presentations, education and training applications, the Pocket Scan Converter converts PC graphics signals to standard TV video. Using a Pocket Scan Converter and a notebook computer(or any PC), presentations can be displayed on a TV or recorded onto video tape. When the work is done, Pocket Scan Converter can be used to play computer games on a giant screen TV. Designed with flicker reduction circuitry and S-VHS support, the Pocket Scan Converter produces extremely vivid, high quality images with up to 16.8 million colors. A compact, external device, perfect for notebooks, Pocket Scan Converter is ideal for the mobile professional. Wherever your presentations take you, from the boardroom to the training room, the Pocket Scan Converter will take care of your image.

New Video Signal Processor Technology

AITech

Vision for Multimedia

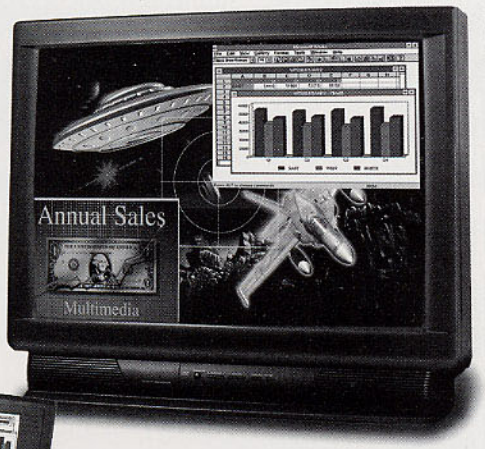

Pocket Scan Converter

Model PSC-1106: Portable PC to TV Video Converter

- **Small, compact design is easy to carry**
- **High quality video conversion supports up to 16.7 million colors**
- **Fun to use, easy to install**
- **Ideal for education, entertainment, and business presentations**

Converts VGA to TVs or VCRs

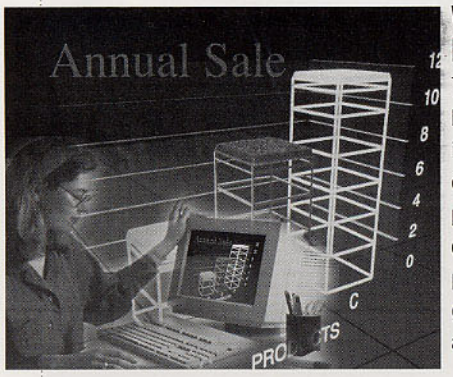

The perfect way to connect PC graphics to TVs and VCRs, **Pocket Scan Converter** provides high quality whether you are converting PC-based games, delivering a business presentation, or recording an animation.

Play PC Games on TV!

No more tiny PC monitors. Magnify all the action and excitement by connecting your PC to a large TV screen. **Pocket Scan Converter** is the perfect companion to turn your PC into a family entertainment center.

Winning Business Presentations

The lightweight and portable **Pocket Scan Converter** is ideal for business presentations on the go. Use a big-screen or projector TV, to captivate your customers with business presentations that include graphics, video clips, and animation.

Ergonomic Design

Pocket Scan Converter comes with a Windows utility for on-screen adjustments to maintain full compatibility with all popular games and presentation software. The advance Flic Free™ filter removes the annoying flicker commonly associated with VGA to TV converters. Even a cable catch has been designed in to prevent dislodging your video cable during the excitement of game playing!

Easy 4 Step Installation

1. **Connect Pocket Scan Converter to VGA output**
2. **Connect VGA monitor to Pocket Scan Converter**
3. **Connect Pocket Scan Converter to video input of TV or VCR**
4. **Install software driver**
