

Artisan Technology Group is your source for quality new and certified-used/pre-owned equipment

- FAST SHIPPING AND DELIVERY
- TENS OF THOUSANDS OF IN-STOCK ITEMS
- EQUIPMENT DEMOS
- HUNDREDS OF MANUFACTURERS SUPPORTED
- LEASING/MONTHLY RENTALS
- ITAR CERTIFIED SECURE ASSET SOLUTIONS

SERVICE CENTER REPAIRS

Experienced engineers and technicians on staff at our full-service, in-house repair center

*InstraView*SM REMOTE INSPECTION

Remotely inspect equipment before purchasing with our interactive website at www.instraview.com ↗

WE BUY USED EQUIPMENT

Sell your excess, underutilized, and idle used equipment. We also offer credit for buy-backs and trade-ins. www.artisanng.com/WeBuyEquipment ↗

Rack ATS, 20A, 208V, (2)L6-20 in, (1)L6-20 out

Part Number: SU045-1

SU045-1 Features

19 inch Rack-Mountable	Supplies redundant AC power to connected equipment. Two AC lines power the unit and if the primary AC power fails, the unit will automatically switch to the alternate power source.
Quick Transfer Rate	Transfer rate is within the industry standard and within the time power supplies will typically drop loads. The transfer of one power source to another is seamless to the connected equipment avoiding disruption of equipment performance.

Rack-mount Transfer Switches Features & Benefits

Agility

Wide range of input and output connections Product family includes a variety of input and output connections to distribute 120V, 208V, or 230V power to multiple outlets. Having a variety of inputs and outputs allow users to adapt to varying power requirements. APC offers units that bring up to 14.4kW using a single branch whip.

Availability

Remote Management Capabilities Full-featured network management interfaces that provide standards-based management via Web, SNMP, and Telnet. Allows users to access, configure, and manage units from remote locations to save valuable time. Associated with this feature is the ability to quickly and easily upgrade the firmware via network download to installed units for future product enhancements.

Dual Input Power Sources Supplies redundant AC power to connected equipment. Two AC lines power the unit and if the primary AC power fails, the unit will automatically switch to the alternative power source.

Information Displays Indicates the status of the AC sources powering the units, as well as indicates which source is set as the primary source and which source is currently supplying power to the load. This provides a visual depiction of the power flow from the input to the load. This allows the user to quickly glance at the power flow and status of the input sources without connecting to the unit.

Rack ATS, 20A, 208V, (2)L6-20 in, (1)L6-20 out

Part Number: SU045-1

Output

Nominal Output Voltage	208V
Maximum Total Current Draw per Phase	16A
Output Connections	(1) NEMA L6-20R
Overload Protection	Yes
Cord Length	0.61 meters

Input

Nominal Input Voltage	208V
Input Frequency	50/60 Hz
Regulatory Derated Input Current (North America)	16A
Input Connections	NEMA L6-20P
Cord Length	1.83 meters
Number of Power Cords	2
Acceptable Input Voltage	200-240 VAC
Maximum Input Current per phase	20A
Load Capacity	3328 VA

Physical

Net Weight	4.56 KG
Maximum Height	44.00 mm
Maximum Width	

Environmental

Operating Environment	0 - 50 °C
Operating Relative Humidity	0 - 95%
Operating Elevation	0-3000 meters
Storage Temperature	-15 - 65 °C
Storage Relative Humidity	0 - 95%
Storage Elevation	0-15000 meters

Conformance

Regulatory Approvals	CSA,FCC Part 15 Class A,UL 1778
Standard Warranty	2 years repair or replace
