# APPIAN JERONIMO™ 2000

Appian's Xtended Desktop Solution for Windows, Linux and Macintosh

1. Up to 64MB SGRAM
2. Two 3Dlabs® Permedia®3 accelerators
3. Dual-monitor output from one AGP or PCI slot
4. DirectX® and OpenGL® acceleration across dual monitors
5. Video input capability (PCI version only)

**Big ideas need room.**
The Appian Jeronimo™ 2000 is for engineers, stock brokers, video editors and anyone else whose big ideas need room. And it offers top graphic performance and high-resolution display. With 2D/3D hardware acceleration, OpenGL and DirectX support, this card delivers superior performance to extended desktop environments.

**The complete extended desktop solution.**
Appian provides it all: high-performance graphics cards, time-saving HydraVision™ software and worldwide support. And only Appian offers AppianXtras™—a suite of multi-display specialty tools which allow you to see more and do more.

*Appian Jeronimo 2000 provides an extended desktop solution for multiple platforms, including Windows, Macintosh and Linux.*

**Superior performance from one slot.**
Jeronimo 2000 uses two Permedia3 chips from 3Dlabs to quickly complete your graphics tasks and deliver professional quality 2D and 3D performance.

**AGP compliance and power.**
Jeronimo 2000 is the only AGP compliant, multi-accelerator, multi-monitor card on the market today. Using the Appian/B1 bridge chip (developed in conjunction with 3Dlabs), this card offers OpenGL support across dual monitors.

**Real-time video-in.**
The PCI version of the Jeronimo 2000 can overlay a live video feed from a baseband source (pre-tuned via a TV, VCR, etc.) seamlessly across monitors. With video-in and the optional Appian TV Tuner, you have the ability to select and display broadcast channels with stereo sound on your PC.

**Multi-platform support.**
In addition to Macintosh OS 9 (AGP only) and Linux, the Jeronimo 2000 is fully compatible with Windows 98, NT, 4.0 and 2000.

**Powerful desktop management.**
Appian's HydraVision software lets you define the placement of windows and dialog boxes to manage information across your extended desktop. Hot key shortcuts and other time-saving features help you work more productively.

**Recognized leader.**
Because Appian is the leading provider of extended desktop solutions, major PC manufacturers like Compaq, Dell, Hewlett-Packard and IBM offer Appian solutions to their customers.

THE LEADER IN
Xtended
Desktop Solutions

XTENDED DESKTOP SOLUTIONS™

# APPIAN JERONIMO™ 2000

*The Appian Jeronimo 2000 is just one of Appian's Xtended Desktop Solutions. The Appian Traveler™ delivers extended desktop technology to laptop users.*

## Appian Jeronimo 2000 Technology Benefits

- Two 3Dlabs Permedia3, 128-bit graphics accelerators provide impressive 2D and 3D acceleration across multiple displays
- Support for hardware accelerated DirectX and OpenGL
- Exclusive Appian/B1 bridge chip (AGP 1X with sideband)
- Supports up to 16 monitors with multiple boards
- PCI 2.1 and AGP compliant
- Designed for Windows 98, NT, 4.0 and 2000
- Includes HydraVision software for quick and easy extended desktop management (Windows only)
- Supports different resolutions and refresh rates per monitor

*Appian's HydraVision software allows you to arrange application windows anywhere you want across displays. You can change resolutions, control message placement, arrange your desktop and more.*

## Specifications

### Resolution and refresh rates (Hz)

| | Color bit depth | | |
|---|---|---|---|
| | 32 bpp | 16 bpp | 8 bpp |
| 1600 x 1200 | 60, 75, 85 | 60, 75, 85 | 60, 75, 85 |
| 1280 x 1024 | 60, 75, 85 | 60, 75, 85 | 60, 75, 85 |
| 1024 x 768 | 60, 75, 85 | 60, 75, 85 | 60, 75, 85 |
| 800 x 600 | 60, 75, 85 | 60, 75, 85 | 60, 75, 85 |
| 600 x 480 | 60, 75, 85 | 60, 75, 85 | 60, 75, 85 |

### Video

- Video-in of NTSC, PAL and SECAM (PCI version)
- Optional Appian TV Tuner
- Hardware accelerated DirectX across multiple monitors with AppianDX
- Hardware accelerated OpenGL across multiple monitors with HydraThread

### Memory

- Up to 64MB SGRAM

### Software Support

- Windows 98, NT 4.0 and 2000
- Macintosh OS 9
- Linux
- DirectX
- QuickDraw

### Dimensions

- 12.3"L x 4.2"H

### System Requirements

- x86 host compliant with PCI spec 2.1+ (Windows)
- x86 host compliant with AGP spec 2.0+ (Windows)
- Full-length card slot
- Macintosh G4 or later with at least 64MB RAM (Mac version)
