VCB

Video crossbar board

This product is no longer available.
Please consult Barco's current product offering.

Description | Technical Downloads | Media & Assets

Support

The Video Crossbar Board (VCB), is a single-slot 6U VME board that provides high video bandwidth matrix switching. A built-in microcontroller allows any video input to be connected to any video input. Typical applications of the VCB are connecting multiple workstations to one recording device and adding redundancy to multi-console systems.

Features

- Up to 25 selectable video input sources
- Up to 15 selectable video outputs
- Single slot 6 U VME form factor
- High video bandwidth
- RS 422 inter
- Differential video support (input only)
