Multimek's NEW 384-channel pipetting capability

Beckman Coulter's Multimek Automated 96-channel Pipettor now offers additional flexibility with the introduction of a NEW 384-channel disposable tip dispense head. Extending the rugged "workhorse" technology of the Multimek 96-channel, microplate pipetting in a 384-well format has never been smoother. Both the 96 and 384-channel disposable tip dispense heads are perfect for applications including:

- Microplate replication
- Reagent addition
- PCR* setup
- Full-plate serial dilutions
- Plate consolidation

Product Features

- 384-channel head is interchangeable with the Biomek® FX
- 384-channel head pipettes from 1-30 µl
- 96-channel head available in two pipetting ranges: 1-50 µl or 5-200 µl
- Six-position labware deck
- Pneumatic tip loading for increased reliability
- Specially formulated tip boxes to reduce static
- Mechanical components located above the deck for trouble-free pipetting
- Easy method development with Multimek Pro drag-and-drop software
- Standard safety shield
