709 Rugged Chassis

Carlo Gavazzi Computing Solutions 709 Series Rugged Rackmount Enclosures are engineered for dependability in some of the most severe and extreme environments involving airborne, shipboard, and ground mobile applications. Designed as a rugged solution to meet a broad spectrum of Military Standards, the 709 has a longstanding reputation as a commercial-off-the-shelf (COTS) product that can be easily configured to meet the most challenging deployed requirements.

Enclosures are configured as a 19" rack mount system capable of supporting a wide variety of industry bus standards such as VME, VME64x, VXS, VXI, CompactPCI, and custom bussed backplane technologies. Available in heights ranging from 8U to 14U, these systems are configurable for either rigid mount or shock isolated card cages. The 709 Series utilizes an aluminum, welded design incorporating EMI "honeycomb" filters and environmental gaskets on all access panels to meet stringent emissions requirements. Power supply options provide a wide range of inputs from AC single and three-phase to DC and provide output power up to 2400 watts. The internal rack infrastructure has been designed to meet IEEE1101.10/.11. All systems can be designed to accommodate application specific I/O requirements. Rugged, Reliable and Ready for deployment, Carlo Gavazzi Computing Solutions 709 Series of Enclosures.

FEATURES:

- VME, VME64x, VXS (VITA 41.0), VXI, CompactPCI compatible
- 8U to 14U height offerings
- 125" Aluminum welded construction
- 187" Aluminum front panel
- 350-1600 watt power supply options
- AC Input: 85-264VAC, 47-440Hz
- DC Input: 18-36VDC options
- Shock Isolated card cage
- Removable shock isolated drive bays

Artisan Technology Group is an independent supplier of quality pre-owned equipment
