PRODUCTS

CI-500EX with CI-330EX

The CI-500EX and CI-330EX combine to EXpand the use of a single 1 CFM particle counter to monitor up to 30 locations. This multiport sampling system is capable of sampling from 4 to 30 locations through up to 100' (30 meters) of sample tubing.

Key Features/Benefits

- Sample up to 30 locations at 1 CFM with a single particle counter
- Meets requirements for permanent continuous monitoring
- CI-500EX particle counter continuously checks CI-330EX status
- Built-in thermal printer - Prints data and reports
- Easy to use - Menu driven function key operation
- May be customized to meet your unique requirements
