Fixed-mount DataMan Barcode Readers

The small, high-performance industrial barcode reader

Industry-leading barcode reading software performance (up to 45 reads per second) in a small, industrial-rated housing. DataMan fixed position barcode reader models are available to best match your application for 1-D barcode reading, high speed applications, or for challenging 2-D direct part marks (DPM) and label-based decoding.

DataMan 200 Series Readers

The DataMan 200 series offers industry-leading reading performance in a small product size with Ethernet connectivity for real-time tracking, image download, data transfer and effortless plant integration.

Features:

- World's first introduction of liquid lens technology provides rapid hands-free, software-driven autofocus with no moving parts and increased depth of field flexibility
- Separate models available with three-position adjustable lens, liquid lens, and C-mount lens
- Integrated lighting and laser aiming

DataMan 100 Series Readers

The DataMan 100 series offers industry-leading reading performance in a small product size with USB and RS-232 communication options.

Features:

- Three-position adjustable lens
- Integrated lighting and LED aimer
- Train and trigger button for ease of setup
- C-mount lens option
