MP2 Machine Vision Lens Series

Megapixel Ultra-low Distortion Machine Vision Lens Series

The MP2 Machine Vision lenses are engineered for maximum performance in close-up applications required in factory automation, robotics, and image processing areas.

This Factory Automation (FA) lens provides high-performance optics with a variety of common focal lengths for maximum application flexibility. Ideal for Industrial Machine Vision and Intelligent Traffic Systems.

- 8, 12, 16, 25, 35 and 50mm focal lengths
- Ultra-low distortion
- Higher relative illumination rate
- Captures full resolution of megapixel cameras
- Assured excellent light intensity even in peripheral areas
- High contrast and sharp picture in all areas of the screen
- Compact design
- Locking set screws for focus and iris
