Digital motion control in an economical package

OVERVIEW

The MLP-TRIM is a universal digital controller designed to provide closed-loop speed control to any AC/DC/Vector drive. With 0.01% set speed error, the MLP-TRIM can accommodate demanding electronic gearing applications often found in web handling, and extrusion processes. The MLP-TRIM has all the capabilities of its predecessor, the ML-TRIM, but with additional capabilities for Analog Input and zero cumulative error in follower mode.

FEATURES

- **No complicated programming required; interfaces with nearly any drive**
- **10 millisecond control loop for precise speed control**
- **Optical isolation to protect against electrical noise**
- **Built-in LED display can be scaled to engineering units such as feet-per-minute**

OPTIONS | MODELS | DOCUMENTS | RELATED PRODUCTS | APPLICATIONS
