Introduction

The Perfect Upgrade from Basic Motherboard Audio for Enhanced Music, Movies, and Gaming

This ultra-affordable sound card upgrade allows you to start enjoying an audio experience that's not possible with basic motherboard audio. Thanks to the quality of 24-bit ADVANCED HD™ technology, your music will sound like never before. With Sound Blaster Live! 24-bit, you can convert your old records and tapes into digital audio, immerse yourself in 7.1 surround, and make your games come alive with EAX® ADVANCED HD™ technology.

Features

MUSIC

Patented CMSS® 3D Audio Technology

- Listen to all stereo recordings including MP3/WMA and CD music in clear, compelling 7.1 surround.

EAX® Music Enhancements

- Dramatically enhance your music with features including Bass Boost, Multi-Band Graphic Equalizer, Audio Clean-Up, and more!

Full Windows Media Player 9 Support

- Enjoy Windows Media 9 Pro audio content in 24-bit/96kHz quality and multi-channel surround.

MOVIES

Complete Cinematic Surround Sound with DVD Movies

- Immerse yourself in captivating theater-like multi-channel surround in traditional 5.1 surround, 6.1 surround with additional rear center channel, or 7.1 surround with a rear center or side surround configuration.

GAMES

Realistic EAX® ADVANCED HD™ Effects

- Experience the realism of environmental audio that only EAX ADVANCED HD effects can deliver in supported games. Whether you're into single player first person shooters or multiplayer online gaming, you'll hear all the action.

Comprehensive Multi-Channel Surround with 3D Games

- Enjoy dramatic 3D positional audio, and sophisticated reverb effects, up to 7.1 surround sound with over 400 existing 3D games and today's hottest titles including Unreal® Tournament 2004, Battlefield Vietnam™, Colin McRae Rally 04™, and more!

Specifications

High Definition Audio Quality

- 64 audio channel playback with independent sample rates
- 24-bit Analog-to-Digital conversion of analog inputs at 96kHz sample rate
- 24-bit Digital-to-Analog conversion of digital sources at 96kHz to analog 5.1 speaker output
