Remote Management

The DGE-530T includes additional advanced features such as Advanced Power Management and Wake-on-LAN support. It also supports remote network boot using both PXE and RPL, allowing network administrators to boot the PC from anywhere on the network.

The DGE-530T supports all major operating systems, guaranteeing compatibility with existing workstation and desktop environments. Its half-height form factor allows it to be used in low-profile cases for compact PCs. The card also has a diagnostic utility tool, simplifying troubleshooting.
