"The Stealth II is one hell of a graphics accelerator for the money"
CNET Gamecenter
Hardware Achievement of the Year
February 11, 1998

KEY BENEFITS

Outrageous 2D Windows Acceleration

Tired of waiting for slow screen graphics? Stealth II's performance in Windows 95 means vibrant color and blazing speed for home productivity, desktop publishing and

business software.

- Instantly accelerates all Windows 95 software
- Faster operations and redraw for spreadsheets and finance software
- Clearer, sharper graphics for desktop publishing
- Rendition's Verite™ 2100 - 64-bit integrated multimedia accelerator
- Reliable, award-winning Diamond driver technology
- Drivers for Windows NT 4.0 and OpenGL also included

4MB SGRAM for Optimum Graphics Display

Packed with high-speed memory, Stealth II displays photo-realistic colors in high resolutions and ergonomic refresh rates.

- Displays 16.7 million colors (24-bit) at up to 1024x768 resolution

Radical 3D Gaming

No more jagged images or sluggish games. Stealth II delivers unbelievable 3D performance to your favorite 3D software.

- Removes jaggy edges and blocky graphics through hardware accelerated anti-aliasing, gouraud shading and bilinear filtering
- Feel true 3D immersion and realistic backgrounds through advanced transparency, texture mapping and alpha blending functions
- Optimized for popular games written to RRedLine™, Speedy3D™ and Direct3D™ games

Advanced Video Playback

View video in gorgeous, full screen drama on your PC. Great for playing back video clips, downloaded web video, movies and multimedia.

- Upgradeable to TV tuner/video capture
- Full-screen, smooth playback of MPEG-1, Indeo and Cinepak video
- Great frame rates and superior image quality through X and Y interpolation
- Digital Video (YUV) Input for easy upgrade to DVD

FREE Software

Includes a Game Sampler CD and InControl Tools 95 desktop utility.
