The Dillon GTS-1000 is a ball-screw driven digital test frame with impressive abilities. The dimensions, speed range and capacity have been carefully optimized to cover the test procedures and specimen sizes most often needed by quality departments within R&D and production industry.

The digital controls produce accurate testing speed and intuitive operation. The large workspace allows for awkward samples and fixturing.

Two test modes increase productivity and enhanced stand control is available with the GTX Plus force gauge. Dillon offers a wide assortment of gauges, grips, accessories and software for a system that meets your needs at the best price.
