

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

V710
VXI Signal Conditioning Termination Panel

The V710 active termination panel is a 19" rack mount 3U chassis that supports up to 16 signal conditioning modules for a maximum of 32 bridge signal conditioning channels.

The V710 is designed for use with the KineticSystems 3U front-end signal conditioning modules SC20 & SC21, that are controlled and monitored by the serial controller module SC15.

The V710 also accomodates ADC hosting connector modules SC16 & SC17, direct input modules SC25, and the system power supply modules SC10 & SC11.

SC20 Module | SC21 Module | SC15 / SC16 / SC17 Modules | SC25 Module | SC10 / SC11 Modules | V710 Chassis

SC25: Direct Input Module

The SC25 is a 3U two-channel direct-input module.

In V710 Termination Panels that include SC20 Bridge Signal Conditioner modules, it may be necessary to provide some voltage-input channels. The SC25 serves this purpose by providing straight-through signal paths from the front-panel connectors to the ADC input channels.

Options are available with two isolated BNC connectors or two 2-contact LEMO connectors.
