IMPROVE WATER QUALITY WHILE ENHANCING OPERATIONAL EFFICIENCY

FILTRATION BENEFITS

- Enhance guest satisfaction
- Minimize equipment downtime and maintenance costs due to scale buildup
- Reduce both upfront and long-term operating costs
- Improve the overall quality and taste of beverages and ice
- Increase the performance and efficiency of laundry and warewashing operations

WORLD CLASS SERVICE

- Unit-level water analysis ensures consistency and quality across your entire operation
- Managed cartridge changes and system monitoring allow you to do what you do best – run your business

STATE-OF-THE-ART TECHNOLOGY

- Advanced materials of construction for durability
- Filter cartridges remove both chlorine and chloramines – no need for separate filters to handle variable water chemistry
- Sanitary, quick change cartridges decrease downtime and risk of contamination
- High dirt-holding capacity helps reduce the need for pre-filtration
- Low pressure drop optimizes equipment performance
- Minimal upfront cost with installation and routine service included

HIGH CAPACITY EQUIPMENT SYSTEMS

Ecolab high capacity filtration systems are constructed of proprietary reinforced nylon for long-lasting durability.
