ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

PORTABLE ULTRASONIC FLOW METER

FEATURES

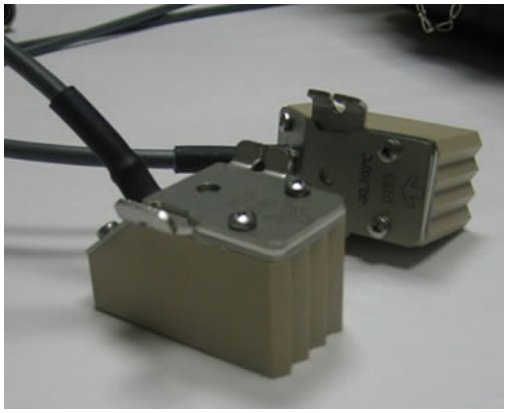

- Fully Weatherproof IP68 Rated Flow Meter/Computer , connectors and flow sensors. 60,000 point built in data logger, analog output, back lit LCD displaying flow and total, RS 232 and 5 M cable as standard.
- Extremely easy to use and install clamp on sensors with no process interruption. Advanced signal transmission. Totally non-invasive flow measurement of liquids, no pipeline disturbance and no pressure loss.
- Suitable for all commonly used pipe materials and sonically conductive liquids
- Measurement in imperial or metric units
- With improved Signal transmission, the standard sensors cover a wider range from 2” to 98”
- The standard EESIFLO Portalok 7s is sold and supplied as a complete kit ready for measurement on all types of metal and plastic pipes and all sonically conductive liquids.

ADVANTAGES

- Weatherproof flow meter and sensors
- Dual Mode Measurement
- User friendly
- No cutting of pipes
- No process stops
- Easy to Transport & Protect
- Data Logging
- Current and Binary Outputs Extended Battery Management

Ordering Information/Kit Model Number

EESIFLO® Portalok 7S Weatherproof Dual Processor Portable Ultrasonic Flow Meter for flow in liquid pipe measurements between 2 “ to 98” and from -30 °C to 100°C (22°F to 212 °F) with built in 4-20 mA output, 60,000 point data logger, RS 232 port, cable and Windows software. 110/220 VAC Wall mount battery charger, 5M sensor cable, pipe clamping fixtures, ultrasonic couplant bottle, measuring tape, calculator and instruction manual

SPECIFICATIONS

Measurement Technology :	Ultrasonic Time Difference Correlation principle with Doppler-Assist
Flow Velocity :	0.01…25 m/s (0.003 to 82 ft/s)
Resolution :	0.025 cm/s (0.0008 ft/s)
Repeatability :	0.25% of reading +/- 0.02 m/s (0.06 ft/s)
Accuracy :	+/- 1% to 3% of reading .. +/- 0.5% with process calibration
Measureable Fluids :	All sonically conductive liquids with less than 10% entrained gas and solids
Recommended Pipe Measurement Range :	Standard Sensors M Type DN 50 to 2500mm (2 inches to 98 inches) Optional Pipe Ranges – On request

ELECTRONICS ENCLOSURE

Weight :	3 kg/6.6 lbs
Degree of Protection :	Designed to IP68
Material :	High Density Polyethylene Waterproof and Crushproof
Measuring Channels :	1
Battery Operation :	24 Hour usage on full charge
Display :	2 x 16 character matrix . backlit
Electronics operating temp :	-10°C to 60°C (14°F to 140°F)
Sensor operating temp :	-30°C to 120°C and up to 150°C for short periods
Power Consumption :	less than 10W
Signal Damping :	0-100s (adjustable)
Measuring cycle :	100 to 1000 Hz
Response time :	1 second

MEASURING FUNCTIONS

Quantities of Measurement :	Volumtric flow rate, mass and sonic velocity
Totalizers :	Volume and Mass
Data Logging :	Approximately 60,000 values
Operating Language :	English

Artisan Technology Group - Quality Instrumentation ... Guaranteed | (888) 88-SOURCE | www.artisantg.com

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.

Learn more!

Visit us at **artisantg.com** for more info on price quotes, drivers, technical specifications, manuals, and documentation.
