

ARTISAN®
TECHNOLOGY GROUP

Your **definitive** source for quality pre-owned equipment.

Artisan Technology Group
(217) 352-9330 | sales@artisantg.com | artisantg.com

Full-service, independent repair center
with experienced engineers and technicians on staff.

We buy your excess, underutilized, and idle equipment
along with credit for buybacks and trade-ins.

Custom engineering
so your equipment works exactly as you specify.

- Critical and expedited services
- In stock / Ready-to-ship
- Leasing / Rentals / Demos
- ITAR-certified secure asset solutions

Expert team | Trust guarantee | 100% satisfaction

EKO INSTRUMENTS CO., LTD.

MP-160

I-V Curve

I-V Curve Tracer

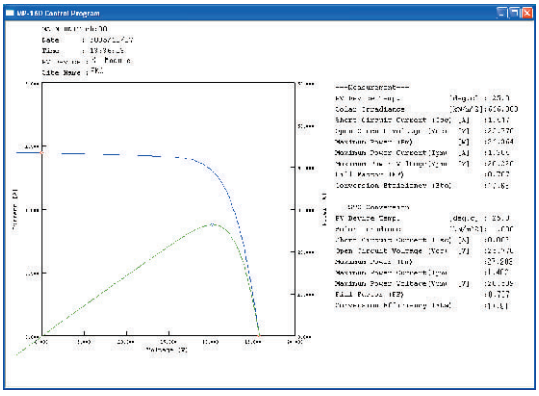

EKO I-V Curve Tracer MP-160 measure the I-V curve characteristics of various photovoltaic (PV) devices.
MP-160 can be used for wide range measurement purpose. PV cell measurement under solar simulator, PV module measurement under sunlight and other kind of measurements can be performed by MP-160.
MP-160 also suit for the measurement of large size cell, chemical compound cell and dye sensitized cell, which requires accurate measurement.
Addition to that, MP-160 can be connected up to 4 module selectors optionally. Each selector can be connected up to 12 PV modules, so MP-160 can be connected up to selectable 48 PV modules.

Specifications

MP-160	
Measuring method	Electronic load method
Measuring Range	Voltage : 300, 30 , 3 [V]
	Current : 10, 3, 0.3 , 0.03 [A]
Inputs	PV Device (four-wire method) x 1
	T-type thermocouple x 2
	Pyranometer or Reference Cell x 1
Sweep Data	256 Sets of Voltage, Current and Light Intensity
Sweep Time	2 to 330 sec.
A/D Converter	16 bit
Communication	RS-232C, 38400 Kbps
Power requirements	AC100 to 240V, 50/60Hz, Stand-by 20VA, Max. 200VA
Dimensions, Weight	370 x 350 x 133 mm, 9 kg

IV and PV curve
