ElizaTest 3+ Vision Tablet Testing System

More accurate testing means better tablet quality because of Elizabeth's patented Vision Tablet Testing System

Thickness, weight and hardness are measured more accurately than ever before ...
Elizabeth-Hata's ElizaTest 3+ Vision Tablet Testing System solves the problem of quality control by precisely measuring three critical characteristics: thickness, weight and hardness regardless of tablet shape. It operates in the laboratory or on the production line with equal ease and dependability. The system is offered in Stand Alone configuration, and includes the testing module, the computer, a color monitor, keyboard, mouse and laser printer.

In the past, automatic three-way tablet testing equipment accurately measured the thickness, weight and hardness of round tablets quite well; but it fell far short of perfection when it came to testing shaped tablets. Hardness, in particular, was difficult to measure consistently and accurately. But not anymore.....

With Elizabeth-Hata's new ElizaTest 3+ Vision Tablet Testing System thickness, weight and hardness are measured more accurately than ever before regardless of tablet shape. An exclusive vision system orients every shaped tablet every time along the correct axis. These features all combine to make this the most sophisticated, precise and efficient tablet testing equipment in the world.

The ElizaTest 3+ system gives you a precise reading every time with minimal waste. This tablet testing system provides you with accurate computer printouts of individual samples, batches or setups in accordance with your specific requirements. Printouts also include a photo of the tablet being tested.

ElizaTest 3+ dimensions are as follows:

44.5"H x 19.5"W x 19"D

These are some of the ElizaTest 3+ Specifications:

- Validation and Documentation included
- Shape orientation
- Bisect detection
- Operates under extremely tight tolerances
- Computerized Balance
- Hardness:
  - 0-50 Kp/0-70 Sc/ 0-491N
  - Tolerance +/- 0.5 Kp
- Thickness:
  - 1-15 mm/.039 to .590 inches
  - Tolerance .0005 inches

- Windows NT 4.0 graphical interface
- SQL relational database support
- Microsoft Access included
- Tolerance and plausibility rejection
- Security
- Operation Log
- Diagnostics
- Sophisticated reporting
- Statistical analysis
- And More...

Artisan Technology Group is an independent supplier of quality pre-owned equipment

Gold-standard solutions

Extend the life of your critical industrial, commercial, and military systems with our superior service and support.

We buy equipment

Planning to upgrade your current equipment? Have surplus equipment taking up shelf space? We'll give it a new home.
