SwitchView® SC4 UAD KVM Switch USB Secure Desktop Switching

USB Switching Specifically Designed for Secure Environments

The Avocent SwitchView SC4 UAD KVM switch supports USB peripherals (keyboard and mouse), audio and DVI-I video for resolution up to 1920x1200 @ 60Hz. Designed for secure environments, this switch includes four, fully secure channels each isolated to 60dB. With the SwitchView SC4 UAD switch, you can safely switch between as many as four computers operating at different classification levels, all from one keyboard, monitor and mouse. Certified by NIAP Common Criteria to EAL 4+, the SwitchView SC4 UAD switch is custom designed to support multiclassification, secure applications to ensure your data will not be compromised.

An added benefit of the SwitchView SC4 UAD switch is the DVI-I video. The DVI-I video lets government analysts easily view high-resolution applications such as detailed mapping or satellite images, which are critical security assets. The SwitchView SC4 UAD switch with USB support, advanced video and enhanced security is a major advancement for the secure, government, computing environment.

SwitchView SC4 UAD switch gives users convenient USB peripheral support and DVI-I video for resolution up to 1920x1200 @ 60Hz.

Benefits

- NIAP Certification
  - NIAP Common Criteria approval to EAL 4+
- Security
  - Four, fully secure channels isolated to 60dB
  - Tamper-proof, non-reprogrammable firmware
  - Safely switch between computers operating at different classification levels, without compromising network security
  - Automatically clears the keyboard buffer immediately after data is transmitted so no data is ever left in the switch
- User
  - **USB Peripherals -** includes support for USB keyboard and mouse
  - **Advanced Video -** DVI-I video with resolution up to 1920x1200 @ 60Hz; supports analog or digital video applications
  - **Audio -** supports speakers and a microphone
  - **Multiplatform Support -** Windows®, Sun® and UNIX workstations

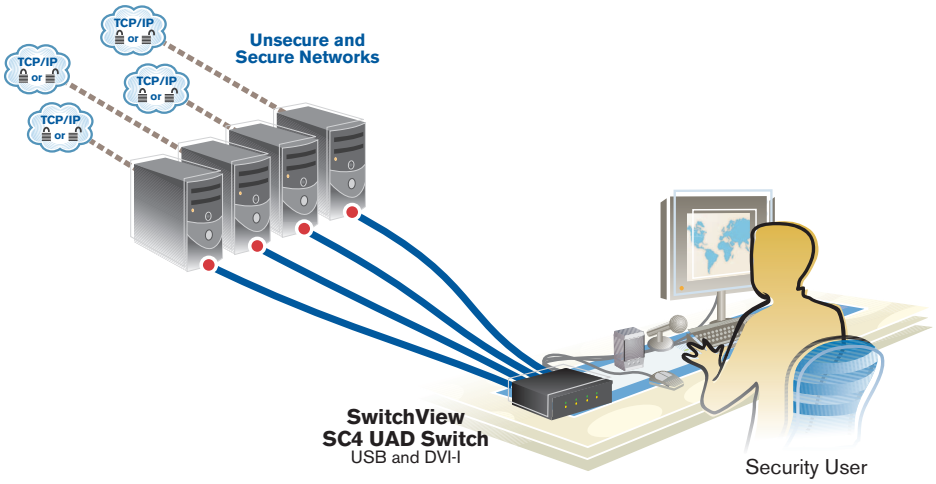

Part Number	Description
